Although we can't get together this year, Deakin Abroad would like to celebrate our awards' Global Citizenship journey and wish them all the best for their future efforts! The Global Citizenship Programs & Bursaries were compiled to build a strong academic community and scholarly programme at Ustinov College; to promote critical literacy, intercultural communication and interdisciplinarity; and to provide a space for continuous exploration of global citizenship in theory and practice. The programme offers leadership roles and accommodation awards to full-time postgraduate students, who can promote their research through community engagement and acquire a set of communicable skills for academic and non-academic fields. The GCP incorporates three main streams that include a wide range of activities: Intellectual & Global Curiosity Café Scientifique, Café Politique, Café des Arts, Ustinov Seminar, Ustinov Intercultural Forum (UIF) Careers, Employability & Personal Development Ustinov SUCCESS (Shaping Ustinov College Careers and Employability Success for Students), Ustinov Annual Conference, Publications and Media Participation & Leadership Ustinov Volunteer, Music and Performance Successful applicants will have a variety of academic, social, and cultural events and projects including seminars and discussion groups, research forums, careers and development sessions, volunteer exchanges and academic conferences. Bursaries take the form of accommodation grants – generous contributions to college accommodation costs. A majority of the positions awarded constitute partial accommodation awards, equivalent to a third of the accommodation costs for an en-suite room in College. The Ustinov College Scholarships are open to all current and prospective full-time members of Ustinov College, of any subject or discipline. As the Volunteer team leader, I enjoyed the sense of community that the GCP offered. I've had many opportunities to engagement both within college and beyond. One of the most rewarding aspects builds a bridge with the local community. The GCP allowed me to become a better, more equipped, global citizen who benefited me privately as well as my academic and professional life. The program lived absolutely to my expectations. & Kristine Kivle (MSc Defense, and Diplomacy) Click on the brochure above to explore Ustinov's Global Citizenship & Bursaries. Sotogrande International school is a learning community passionate about providing an international education, which inspires and encourages learning and intercultural understanding. At Sotogrande International School, we believe that being a global citizen goes beyond simply traveling around the world or living an exterior lifestyle; it refers to a more holistic view of the world, understanding the commonalities we share and recognizing our responsibility to help our fellow human beings and safeguarding our planet's future. As an entire school community, we define Global Citizenship as: being aware of, learning about and understanding the world beyond ourselves; our planet, all humans and species with whom we share it, promoting and promoting values of compassion, respect and acceptance for all humans, diverse cultures and beliefs; to embrace cultural differences and take on personal responsibility and work interdependently to create local and global sustainable solutions for a more peaceful, inclusive and united world. With this in mind, we have developed a unique Global Citizenship Programme at Sotogrande International School that empowers learners to take active roles in facing and solving global challenges that take proactive personal responsibility to create a more peaceful and sustainable world. Led by the UNESCO and the Board of International Schools, we have created a framework for the Global Citizenship Programs associated with, what we believe are the four pillars of Global Citizenship.
