Agile and acrobatic, Double Blades are rogue thieves who have left the Dark Lord who rules their guild. Armed with a dagger in one hand and a catarh in the other, Dual Blades receive numerous attack bonuses and can get an extremely high speed of hit. The highly mobile Dual Blade can chain together flashy combos and has one of the highest evasion rates in the game. The Dark Lord. It is an unfortunate name, for it brings up images of evil and fear. However, whoever carries this title does so not because he is evil, but because he spends so much time in the dark fighting against things that will bring Maple World down. This is a high and lonely fate, which is well carried by all those who carried the title. The former Dark Lord was a great man who fought against the forces of darkness all his life. As all dark lords should, he is carefully groomed possible successors. His two greatest disciples were a young man named Jean and his own daughter, who is now known to us only as Lady Seal. Both were great students, people of great strength and moral character, and he nurtured and loved them both. In turn, Lady Sil and Jin revered their teacher and developed a great attachment to each other. The times were happy as they all trained and worked together. The trouble began with an urgent request from Tristan, a friend of the Dark Lord. It seemed that Balrog was resurrected and destroyed Victoria Island. The Dark Lord immediately went to help, but when he arrived in Sleepywood, his friend Tristan was nowhere to be found. He eventually tracked down Balrog and confronted him in a deadly battle. Alas, Balrog is an enemy not so easily beaten for his evil not only physical but spiritual as well. The Dark Lord lost his focus for a split second and let Balrog's evil slip past his shields - and he lost his soul. The Dark Lord became one of the very monsters he spent his life defeating, and began attacking Kerning City. Jean, who followed his master against his will, witnessed everything. In desperation and agony, he tried to turn to what was his former master, trying to get him to remember the man of virtue and honor he once was. Alas, it was not to use! Jin knew what he would have to do, what his true master wanted, and he defeated the monster who wore his master's favorite face. Tears of burning eyes, Jin carried the body home to bury him in honor and force him like the Dark Lord. As it turned out, that day Balrog reported two victims. Lady Seale, her mind and soul, shattered by the loss of her beloved father, accused Jin of not protecting him. Over time, she came to the view that Jin even designed his father's death to take his position as the Dark Lord. Nothing Jin could say or do could convince her that she had made a mistake, that he would have given everything to save his father's life, and that never wanted to become the Dark Lord that way. It didn't work. Lady Seale's heart grew cold and bitter, hating the man she loved with cold fury, which looked like a wall of ice between them. The last time they saw each other, Jean last pleaded with Lady Seale, imploring her to remember the honor and greatness of her father and the love they once shared. Lady Strong simply promised him that when the end was over, his death would rival her father's pain and suffering. Now in the heart of the city of Kerning is raging secret war. Lady Seale and her Double Blades continue to fight the Dark Lord from an unknown place, simply known as the Secret Garden. Her new organization is growing in strength and more and more skilled robbers are disappearing. The Dark Lord knows that Lady Seale is preparing to make her move, although he does not yet know what this step will be. Meanwhile, a man named Ryden in the back alley of Kerning City begins to talk to travelers here and there, making an interesting offer. In the Secret Garden, Lady Seal takes care of her plants, gathers her strength and cares for her ever-growing fury and bitterness towards the Dark Lord. However, in the silence of her empty heart, tiny embers are what she long thought, extinguished remains. No one knows whether she will be able to reconcile before she and the Dark Lord destroy each other. The current post-red original 듀얼블레이드 (Double Blade, Dyu-eol beulleideu) 듀어블레드 (Double Blade, De-yuaru bureido) Double Blade is a special branch of the Thief Explorer class. The Double Blade has two weapons: a dagger in one hand and a catarina in the other. Double Blades are rogue thieves who have strayed from their original path. Instead of following the Dark Lord, they obey Lady Seal, who believed that the Dark Lord was responsible for the death of her father when in fact it was Balrog who killed him. So she created her own group of thieves, Double Blades, to eliminate the Dark Lord. Despite the fact that the Double Blade is a secret organization, it is still considered a thief-researcher. Their base is located in the Secret Garden, which can be accessed through a portal in the city of Kerning. The dark lord's story. It is an unfortunate name, for it brings up images of evil and fear. The Dual Blades Class is known for its fast, flashy attacks and hidden maneuvers. Their signature two weapons are accompanied by numerous attack bonuses and 100% critical hit rate give them a huge damage output, which not only makes them one of the easier classes to align, but also makes them useful in a high level boss. They also have a high preventability, the highest level of evasion compared to the rest of the classes, and many of their skills possess the invincibility of frames, making them virtually invincible. There are a few other drawbacks of this class. One example is that 2nd, 2nd and 3rd class jobs have skills that can only be advanced with the Double Blade Training Book, obtained from Tasha's Secret Garden for 100,000 mesos. Most of their skills also cannot be used in certain areas. Like all other thieves, Dual Blades has high MP usage and cannot easily recover an MP without using potions.
