MANHOOD ACADEMY GLOBAL

RAPID CHANGE

The world is transforming at an alarming rate, sometimes it is impossible to keep it.

According to the Office for National Statistics Men account for 8 out of 10 people cautioned by the police, and nearly 9 out of 10 people found guilty for indictable offences are men.

Men are responsible for 97% of burglary and 92% of violence against the person, It is clear that we are living in a society where something awful is happening to men.

There seems to be a gap between manhood and adolescence and our mission at Manhood Academy Global is to address that gap by helping our sons make that transition from childhood to manhood. We could be here all day dissecting the issues within our community, issues that seem to be spearheaded by men.

Whatever your social standpoint, we cannot stick our head in the sand pretending that there is no problem. There is a massive issue and this issue is having a major effect on society.

ABOUT MANHOOD

The transition into manhood is very different for boys living in the UK (some say the entire Western hemisphere). In this culture (London, England), boys typically are considered to have become men when certain physical changes have occurred, or when they become part of a social group (e.g. gang) , get their first car, turn 18 or have their first experience with a girl. A lot of teenagers we engage with do not get guidance from fathers or role models who ought to teach them the principles (pillars) of manhood so they can identify it when it arrives.

London (Urban) boys are expected to initiate themselves into MANhood. They often are left to adopt ideas of masculinity from TV or mainstream media, these ideas are nothing but negative stereotypes about how 'they' want our sons to be. These stereotypes often are built on the ideas of power, greed, trauma, violence and irresponsibility, and are reflected in toxic behaviors such as denying emotions, extreme risk taking, violence to resolve conflict, grooming, resisting authority, drug abuse, seeing women as sexual objects and having unhealthy relationships.

Manhood Academy Global wants to challenge these stereotypes as early as possible. We want our boys to grow up feeling safe and secure. Our rites of passage is a fully integrated and holistic service to young people tackling each of the key drivers of harm, especially gang crime.
We want to help our children gain a healthy understanding of self (self-identity), learn positive responses to conflict and authority and develop respectful ways of relating to others.In order for our sons to make a successful transition to manhood, they need to learn who they are and what it means to be a responsible man.

MANHOOD ACADEMY GLOBAL

I N V E S T I N U S

Manhood Academy Global has chosen not to rely on external funding to survive, we want to rely on our mothers, our fathers, brothers and sisters, aunts, uncles, neighbours, friends and supporters.

We want to rely on the community; members of our village to pull together to ensure our youth get the protection they deserve.

It is with this in mind that Manhood Academy Global has founded this community investment initiative where you can make monthly donations to our cause in return for various benefits. Making monthly donations is the best way to support the work we.
