## Short reading comprehension with true or false questions

Prev zlt; 1 2 3 ... 6's Next Marathon: Long-distance running 26 miles. I was particularly interested in this year's London Marathon as one of my best friends, Adele, ran it for the first time! This year, the men's and women's races were won by Kenyan athletes. Here is a very brief article about the best runners. Read the article and then try to answer the true or false questions below. Caroline's Lesson London Marathon Runners Emmanuel Mutai and Mary Keitany took the Kenyan double, winning the men's and women's races at the 201 London Marathon. Mutai raced to London's record in two hours four minutes and 39 seconds, while Keitany won in 2:19.19, the fourth fastest women's marathon ever. Russian champion Lilia Shobukhova took second place among women. Mutai told BBC Sport: My dreams have come true, the day has come for me. My goal was just to win the race, I wasn't focused on the time. I am happy with the result since I came to work in London, I was fourth twice and second time. It's a fantastic achievement for me personally. Etopian Aber Kebede, last year's winner of the men's race, managed only to finish ninth. Britain's Joe Pavey came through in a time of 2:28.24, the seventh fastest time for the British athlete and inside British Olympic qualifying time. Teammate Louise Damen, the second British athlete across the line, was also inside qualifying time at 2:30.00. Now decide whether the statements below are true or not: A growing collection of English language-understanding exercises. Test your understanding by reading a short excerpts of the text and then answer a number of multiple options and cloze/gap fill the questions. Choose from items below, or viewed by level: beginner, intermediate or advanced. Business English Education - Educational Entertainment Environment - Nature Health - Medicine Technology Policy - Science Transport - Travel
