# General Memetics News July 2023

## Dear Friend,

If the shift from Childhood to Adulthood can be reduced to a single process it would be that of taking back your Authority.

Your [Authority](#) is an energetic substance in your [Being](#) that gives you the power to [Declare](#), to [Choose](#), to [Ask](#), to say 'Yes', to say 'No', to commit, to start things, to stop things, to create, to take a stand, to move your attention, to speak from your own recognizance, to not act, to act for, to act against, to speak out and to object, to propose, to listen purposefully, to promise, to keep your promise, in short, to be fully you with [Agency](#).

When you move from your own Authority, no one else is responsible for your behavior, not even the wounds you carry from past or present abuses.

One of the biggest fears that usually accompanies taking back your Authority is that when you do so, you might no longer fit it with the masses.

Being punished, reprimanded, or excluded has taught you to cut yourself off from your own Authority in order to fit it. Your Authority was a threat to your parents, to school, to the priest, and maybe even to your friends. As a child, belonging became your primary concern because belonging was a way to survive.

What you sacrifice to survive childhood, and later on, to survive in modern culture (a child-level-responsibility-centered culture) are the exact resources you need to thrive in Archiarchy.

We have been discovering that when you cut yourself off from your own Authority, two cuts actually occur. The first cut is a disconnection

between the 'you' who makes decisions and your Being. You are disconnected from yourself in the sense of removing yourself from the thing in you that has Authority. The second cut is a complete disconnection with Life. The world remains outside of your reach as a terrifying machine ready to crush you. You are [imprisoned in a small place](#) left to [survive with the few tricks](#) you have learned during Childhood. Life at large out there requires your participation as a [Free And Natural Initiated Adult](#).

Your Being is lonely to be seen and loved, which at first seems to increase your compulsions to be adaptive and try to belong. It is an ineffective approach, because your new tricks only compound your old tricks and build [a thicker 'Buffer Zone' between your Being and Reality](#). The way to be seen and loved is to get naked, to reveal yourself, to take the risk of reclaiming your Authority in hundreds of different domains.

The main force holding you back from stepping out from your Survival Strategies into the world is Fear, Unconscious Fear, the Fear of dying if you ever expose your Being, unleash your Authority, and connect with the whole of Gaia and Life.

This is when initiating yourself in [Conscious Fear](#) becomes crucial. It starts by experiencing, expressing and using low intensity Fear in your everyday life. You can find a number of excellent step-by-step experiments on the Conscious Fear website. Then you can join a [Fear Club](#) to keep researching and experimenting with a Team of Fear Researchers.

When you are ready, it will be time to [Stellate](#) your Fear, which is the authentic archetypal initiatory process of experiencing 100% intense Pure Archetypal Fear for no reason. When you 'hit' 100%, you have the full experience in your [five bodies](#) of how big Fear can be. Fear cannot be bigger than that.

Your bodies are designed for experiencing this level of intensity. It is the intensity of being actually alive.

It can be said that nobody belongs in Archiarchy. What this means is that 'belonging' is not a value in Archiarchy.

[Archiarchy](#), the regenerative cultures centered on authentic adulthood initiations, have different values: for example, Love, Clarity, Possibility, Empowerment, Evolution, Transformation, Healing...

Practically, here is an experiment to try: Instead of wanting to belong to a team, right now decide: '*They on my Team.*' No matter what happens, whether they can or cannot be vulnerable with you, whether they can see you or not see you, even if they attack you, you decide 'They are on my Team of Evolution, Transformation, Possibility and Empowerment. What is needed for this Team to work better?'. Then you will already belong, plus, you will have job security doing what is needed for your Team to work better.

Happy Experimenting!

Love,

Your General Memetics News Team: Anne-Chloé and Clinton.

## Latest SPARK

### SPARK 240: The more Something you are, the less access you have to Nothing.

This S.P.A.R.K. implies that there is value in having greater access to Nothingness. What could that value be? Modern culture emphatically promotes each person striving to possess more in the material world, not less. The idea of having Nothing seems crazy enough to be frightening. The worst scenario imaginable in modern culture is the disgraceful state of having so little that you must sleep under a bridge without a job, apartment, car, phone, or credit card. 'Having nothing' is modern culture's nightmare, a threat used to keep you on track in the program of 'getting good grades in school' in order to 'get a good job' so you can earn enough 'money' to be 'successful' and then retire. There is nothing more dreadful than having nothing!
