## VirtualConsult

Fully-integrated voice and video consultations with patients.

- ✓ Invite patients for a virtual consultation with a one-way SMS message or email directly from within EMIS Web or SystmOne
- ✓ Escalate voice to video consultations at the touch of a button
- ✓ Start group calls with patients and their family or multiple clinicians
- ✓ The consultation is automatically stored in EMIS Web or SystmOne, not on the phone or personal cloud
- ✓ Only takes 2 minutes to set up
