## Inequalities and number lines matching worksheet answers

----- note that the information above this point will not be sent to your printer -----; Show solution to irregularities on numeric strings. Use a solid circle to indicate that a number is included in the solution, and use the circle path if it isn't. (first done for you)  $x \leq 3$ ;  $3x \leq 3x$ ;  $9x \geq -3x$ ;  $0x \leq 0x$ ;  $-2x \geq 1x$ ;  $-4$ ----- Break Page-----  
-----End pages 1 Show repliesName: Show address inequalities on rows of numbers. Use a solid circle to indicate that a number is included in the solution, and use the circle path if it isn't. (first made for you)  $4 \leq x \leq 86$ ;  $x \leq 101$ ;  $x \leq 8$ ;  $-1 \leq x \leq 35$ ;  $x \leq 10$ ;  $-3 \leq x \leq 6$ ;  $-2 \leq x \leq 9$ ;  $x \leq 6$ ;  $-2 \leq x \leq 100$ ;  $x \leq 12$ ;  $-4 \leq x \leq 10$ ----- Note: The information under this point will not be sent to your printer ----- Sheet Expressions and Equations - By HelpingWithMath.com This is a sheet of irregularities with a letter of answers. Students are given a brief section of help before being asked to describe the inequalities they see on the number line, as well as draw inequalities. The sheet is differentiated and ideal for completing a task in class or homework. Read moreFreeReport about the problem Students begin by reducing the answers provided. Students need to address inequalities and match the question to the right answer. The answer should be glued to the sheet in the correct place. The student then also presents the correct answer in the number line. Read moreFreeReport about the problem
