CERTIFICATE IN PROJECT FINANCE MODELLING

The complete course in
Project Finance modelling

“

I'm so grateful to receive a Certified Project Finance Modeller designation! For anyone interested in developing transferrable analytical skills in financial modeling, infrastructure, energy, and project finance, I highly recommend you check out the Project Finance Institute.

Alex Martin
Senior Associate
Grant Thornton

COURSE OVERVIEW

WHAT IS THE CERTIFICATE IN PROJECT FINANCE MODELLING?

The CPFM course is the complete course in Project Finance Modelling Training. Available on your terms.

Subscribe for just **\$99/ month** for only as long as you need.

A subscription to the course includes:

- ✓ Complete training in all aspects of Project Finance Modelling.
- ✓ Downloadable models and worked example files.
- ✓ Access to all course updates for as long as you remain a member.
- ✓ Regular live Q&A classes and masterclasses.
- ✓ 10% off any other PFI training (After 3 months of membership).
- ✓ The bonus 'Effective Data Visualisation' course.
- ✓ 10% off the final CPFM Professional Skills Assessment.

COURSE OVERVIEW

FINANCIAL MODELLING EXCELLENCE FOR PROJECT FINANCE

Financial modelling is both a theoretical and a practical skill set. The Certificate in Project Finance Modelling programme develops both areas of competence.

In order to help you master the skills of Project Finance Modelling you'll receive:

- Detailed expert tuition and example models.
- Regular live Q&A sessions with instructors.
- Modelling assignments throughout the course to test progress.
- Final model audit with detailed personalised feedback.*

*Optional final model audit. Requires additional payment for the CPFM Professional Modelling Skills Assessment.

COURSE OVERVIEW

PROJECT ANALYSIS

Project Finance modelling is not just about model build skills. You also need a well-developed analytical mindset.

In addition to practicing your model build skills, you will be given regular analytical assignments.

These ensure that you can use your model to answer critical commercial questions about projects.

Successful completion of the analytical assignments is a pre-requisite to passing the course.

COURSE OVERVIEW

EFFECTIVE DATA VISUALISATION

This bonus-course on data visualisation is included for free with your CPFM subscription.

Within this course, we explore key principles of data visualisation that will, with a little study, improve the way you present data.

We also run monthly visualisation challenges throughout the year!

This course is designed to boost your presentations and professionalise the look of your hard work.

PROGRAMME OUTLINE

Project Finance modelling is not just about model build skills. You also need a well-developed analytical mindset.

Kenny Whitelaw-Jones
Partner, Gridlines
Co-founder, Project Finance Institute

Kenny has spent the last 18 years in financial modelling both in delivery of financial modelling assignments with top tier accounting firms and in training of financial modelling professionals. Kenny is also the co-founder of the Project Finance Institute and workshop leader.
