

US LEGAL LEARNING TREE – PRE-SYLLABUS INFOFORMATION

I am still putting together a syllabus and hope to have it completed by mid-September. But since I have received some questions about topics, below are a few samples:

- Structure of US Court system
- Common Law in the US system
- Basic of US Corporate law
- When Chinese businesses can be subject to suit in the US
- How Trials and Arbitration Work in the US
- IP related topics (copyright, trademark, trade secrets)
- Key Constitutional Law Issues
- Recent Very Prominent Supreme Court Cases

Please do not intimidated. Attendance is not taken and there is no final exam. ☺. Part of the enjoyment I get out of this program is seeing which topics draw the most feedback, etc. and I am always open to suggestions.

If you have any questions, please email me at ajsoven@gmail.com.
