

Carebidet

Stay Safe. Stay Clean. Stay Home.

Parkinson's & Neuro-Muscular Care Solution

The Problem

- Nighttime falls
- Urgency & frequency
- Repeated transfers
- Sleep disruption

The Solution

- In-bed use
- Clean + dry
- Fewer transfers

Key Outcomes

- Fall risk
- Sleep
- Care strain

Caregiver Impact

- Less lifting
- Less wiping
- Easier routine

Dignity

- More Privacy
- Less Hands-on care
- Better Hygiene

Aging In Place

- Safer nights
- Stay home longer
- Reduced overnight care

“We’re finally sleeping through the night - and I have peace of mind.”

*-Mrs. Denise D.,
caring at home for spouse with
Parkinson's Disease*

A Safer Approach to Nighttime Care - Carebidet supports a more controlled and consistent toileting routine by helping individuals remain safely in bed.

Designed for Complex Care at Home - Parkinson's disease, ALS, Multiple sclerosis (MS), Stroke recovery, Early-stage dementia, Mobility impairment, Bed-bound conditions, Nighttime incontinence.
