

Process of ordering in bulk from Aldi

1. Send an email to vouchers@aldi.co.uk. You should provide your organisation's name, address and a list of the products that you require.
2. A member of staff will work out which is the nearest Aldi Regional Distribution Centre to you. They will then contact the Centre to find out if your requested products are available and will then get back in contact with you.
3. They will generate an invoice within 2 to 3 days which can be paid by BACS or CHAPS. You will need to pay the invoice before you can pick up the order.
4. When we asked if there would be any discount this is what they replied: *In regard to bulk buying at a reduced price; I'm afraid this would need to be viewed on a case by case basis, once it was established that the Regional Distribution Centre could fulfil the order.* So, when you have found out whether the Distribution Centre has the stock in that you need, maybe try your luck and ask if they are able to discount the price.
5. If the products are available, you will need to go to the Regional Distribution Centre to pick them up.

Please let us know if you have any questions.
