

This plan is based on the following premises:

1. Every human being, regardless of his or her stage of development, is intrinsically valuable simply because he or she is made in the image of God.
2. A unique human being comes into existence at the moment of conception.
3. Innocent human beings have a God-given right to life, so killing them is murder.
4. Abortion is the intentional killing of an innocent human being and, therefore, murder.
5. The primary purpose of government is to protect God-given rights.
6. Per the United States Constitution's guarantees of the right to life and equal protection of the laws recorded in the Fifth and Fourteenth Amendments, abortion is unconstitutional and unlawful.
7. Per the Florida Constitution's guarantee of the right to life recorded in Article 1, Sections 2 and 9, abortion is unconstitutional and unlawful.
8. Per Florida's homicide definition recorded in Florida Statutes, Chapter 782.04, abortion is murder in the first degree and a capital felony.
9. Any state statutes or constitutional amendments authorizing abortion conflict with higher laws. Not only are they immoral, but they are unconstitutional; therefore, they are null and void.

10. Roe v. Wade and its corollaries violate the clear wording and meaning of the U.S. Constitution; therefore, they are null and void.
11. Executives have a duty to uphold the U.S. Constitution regardless of how other officials ignore or lie about the Constitution.
12. Higher even than constitutions, all men everywhere have a transcendent and moral duty to disregard and, where possible, resist an order from a superior to allow mass murder.
13. Roe v. Wade and its corollaries are like "orders" from SCOTUS to each individual state to permit mass murder. Therefore, Florida has a moral and constitutional obligation to ignore and, if necessary, actively resist Roe v. Wade and its corollaries.
14. All law enforcement personnel have a duty to protect innocent human beings within their jurisdictions.

The Governor of the state is the highest-ranking executive officer in the state.

The Governor of Florida possesses the executive power to initiate and oversee the abolition of all murder by abortion in the state of Florida.

The Governor has a moral and legal duty to take executive action to save innocent lives in his state.

See inside for a step-by-step plan as to how the Governor of Florida – or any other state -- can abolish abortion statewide.

STEP-BY-STEP PLAN:

- 1) Hold preliminary meetings with county sheriffs, city and state police to preselect commanding officers who are committed to the plan and will stand their ground.
- 2) Hold a press conference announcing the immediate abolition of abortion. In the press conference, the governor would explain the entire plan from start to finish. He would announce the effective date of enforcement and outline his specific actions. He might also outline the preferred method of filing a complaint by anyone who has evidence of murder by abortion, whether it was committed by a licensed physician or by parents privately.
- 3) Call an emergency session of the Florida Legislature to enact the Abolition of Abortion in Florida Act to bring Florida statutes into agreement with the higher laws. This Act would lessen the likelihood of lower courts throwing cases out based on contradictory statutes. Since it takes two-thirds of the House and two-thirds of the Senate to override the governor's veto, then the Governor can force the issue by vetoing other bills and the budget until they pass a bill of abolition. The governor can lead and drive the issue to a resolution.
- 4) Instruct Florida's Congressmen to remove jurisdiction from the US Supreme Court to rule on matters involving abortion.
- 5) Order state police to set up barricades at every abortion facility and prevent entry to any party other than the registered owner.
- 6) Order all law enforcement personnel to stand their ground, even in the face of unconstitutional court orders which would certainly be forthcoming.
- 7) Refuse to back down or remove police barricades, no matter what, until properties are re-let.
- 8) Coordinate with the State Attorney General to press charges and prosecute cases that arise from new evidence received after the effective date of abolition.
- 9) Refuse to allow Florida to make an appearance in any court that attempts to block or interfere with Florida law.
- 10) Order all law enforcement personnel to arrest any federal marshal or other official who attempts to interfere with Florida's law.
- 11) Call upon President Trump to stand with Florida.
- 12) If any federal funding is cut off, then withhold all federal tax dollars collected in the state and craft a new state budget that funds essential core functions without federal aid.
- 13) Call upon Christians in Florida to practice pure and undefiled religion (James 1:27), assisting mothers and fathers who would have formerly sought abortion.
- 14) Challenge the governors of other states to follow Florida's righteous example.
