I know a little about Messi and Neymar's humble beginnings, but this is actually the first time I read something about Luis Suarez.

Pre-Barca Suarez, I must admit, is not one of my favorite players. While I know about his skills and what he is capable of, it was easily overshadowed by his on the pitch misconduct most particularly the World Cup incident. It was only just last season that I appreciated him as a player. He spent months not playing on the field, but that assist to Neymar during the El Clasico and his first game for the Blaugranes, take note, was just a preview of what he could add to Barca. A lot of people were doubting how can these three work together? Well, if the treble last season isn't enough of an answer May 20, Lochlan rated it it was amazing Shelves: sport.

Suarez, Messi, Neymar was a book that I wanted to read for ages and I finally got it when my mum saw it at a book store. The book talks about the combination of Suarez's goal scoring abilities, Messi's all round abilities and Neymar's topping of classy skills. In the book they compare the Barcelona strike force too Real Madrid's and when they interviewed some well known retired soccer players like Maradona and Pep Guardiola they say that Barcelona's forwards blend together better and put Real Madrid to shame. I like how Luca Caioli interviews not only the players but coaches and retired soccer players to get their opinion. The quotes that players stated in the book are great because I like quotes.

Despite the rundown nature of the area, the locals took pride in their surroundings. El Chango is shy. When asked what Luis was like back then, his uncle smiles. Football was everything to him.

He woke up with a football and went to bed with one. He never left a play unfinished. He wanted to win. He wanted to score, he wanted to be the goal-scorer, whatever it took. Just as he does now. Is it really possible that one of the most prolific strikers in Premier League history was so clumsy as a child? He saved the day on many occasions. They are wearing red with white and blue stripes and light blue shorts. Sergio is also visible — considerably younger, with dark brown hair, busy lining them up.

Luis is third along with shorts that are too big for him, holding back a smile. Another picture shows Luis in goal, with a haircut reminiscent of the Beatles. The trip down memory lane brings back plenty of memories. Another one is when he was five years old. He was playing when he saw his brother, Paolo, in the crowd, eating a piping hot pizza. Luis kicked the ball into touch and ran to Paolo to get a slice. Paolo told him to get back on the pitch but Luis was having none of it. Luis was yelling, he wanted the pizza. Typical boyish antics. Luis was a good kid, just like he is now. He already had the basics. What he has achieved is all down to him. This was important advice which, as a kid, stays with you for the rest of your life. He taught us how to move on the pitch and caress the ball.

He explained how to kick, tackle, free yourself from markers and finish off a move. He taught us that football is a team game and that there is no point playing for yourself, that passing is key. All of these things are counterintuitive when you are a kid. He was a great teacher. Without his help, we may not have made it to where we are today. Aparicio spent his whole life working on the railways. I was waiting for the final player with the shirt in my hands while the others were warming up. Open navigation menu.
