THE NIGHT OF THE IGUANA

by Tennessee Williams, directed by Anne-Geri' Fann

"Fann's direction is very focused, her vision for the piece transforming the intimate confines of the Darkhorse Theatre into Maxine's coastal Mexican resort and her attention to detail betraying her obvious love for and devotion to Williams' story ... she has assembled a fine ensemble of actors who bring the characters to life and who, despite their wide-ranging resumes and credits, appear to be on the same page and as equally dedicated as their director."

-Jeffrey Ellis, [Broadway World](http://BroadwayWorld)
