## Amoeba sisters video recap autosomal recessive pedigree answer key

A pedigree is a diagram used to observe inheritance patterns. This allows us to look at family history for generations. This is the official answer key for the handout of our Pedigrees website. Pedigrees handouts for students are available for free on our website [www.AmoebaSisters.com/handouts](http://www.AmoebaSisters.com/handouts) and uses our Pedigrees Amoeba Sisters video from YouTube. Please make sure that you (1) can access the free YouTube video that this content corresponds to and (2) that you already have a free student handout from our site that this key corresponds before purchasing this key. Since TpT is the platform where we sell products, we want to avoid double-posting our free handouts on TpT. By purchasing our answer key less than the price of a typical specialty coffee drink, you help fund our passion in creating scientific videos, GIFs, comics, handouts and more! Note: This answer key is included in the purchase of our 5 Genetics Answer Key Kit! We thank you for your support and for watching our videos! We try our best to screen for all typos in our response keys, but we amoeba (ER, man). If you ever find a typo or a problem with our key, please let us know! We want to fix this and then give you a new copy replacement. Terms of use for Amoeba Sisters Answer Keys: This answer key is designed to be used by the educator. Answer keys may not be distributed, reproduced, or sold by any person or outsider. No form of this handout or its copyrighted text can be published on the Internet or distributed publicly in print. The public availability of Amoeba Sisters response keys is a copyright infringement as well as a disservice to other teachers who want to use our activities. Changing this document is prohibited. Answer Key Prices: We have an unusual style in that all of our videos are free, as well as our free student video resume handouts from our site (except to choose handouts available only on TPT). We take into account many factors in the pricing of our keys: the time spent answering questions, whether we need to add additional images or labels (we draw all our own photos) etc. We love specialty coffee, and we believe that if we can set EACH answer a key price on- or a little less than something that you can spend on one specialty coffee drink, then it seems reasonable for us, as the video is available. Keys can offer convenience as well as be useful. You are new to content. Our answer key packs combine keys, and we set the price of packs lower than if you were to purchase the keys separately. Separately.
