ESSESS Foundation Launches ESSESS Ehee HomeCare

Malé, Maldives — ESSESS Foundation has officially launched **ESSESS Ehee HomeCare**, a community-focused initiative aimed at providing essential home repair and maintenance support to vulnerable individuals and families across the Maldives.

The initiative focuses on improving living conditions for those who may lack the resources or ability to maintain safe and functional homes, especially elderly individuals living alone, persons with disabilities, single mothers, and low-income households.

ESSESS Ehee HomeCare delivers practical, on-the-ground assistance through minor home repairs and safety improvements. Services include basic maintenance work, installation assistance, and essential electrical and plumbing support, all aimed at creating safer, more dignified living environments. The service does not include major renovations or cosmetic upgrades.

Applications can be submitted via the website or by sending completed application and verification documents through the Foundation's Viber or WhatsApp platforms.

ESSESS Foundation invites individuals, organizations, and corporate partners to support the initiative through contributions, collaborations, and volunteerism. Community participation will play a key role in expanding the reach and impact of the program.

The launch of ESSESS Ehee HomeCare marks an important milestone in ESSESS Foundation's ongoing commitment to social support and community development in the Maldives, and forms part of the **ESSESS Ehee series**, a growing set of initiatives designed to support communities in need.

For more information or to apply for assistance, please visit www.essessfoundation.org/homecare

END.
