Little monsters. Users blog:Xiaoxuan Dai / A Day At The Ranch - TinyMonsters Wiki.All right, I'll be ahead with everyone and just state that this is a small breeding log of advice and results that I have received over the course of my time while playing this game. Since I am an avid Dragonvale player, I was drawn to this game immediately. The fun pattern and the superior animation is definitely its winning point but its neck-breakingly long breeding, planting, evolving, and level-up times are quite laborious and seriously detract from its playability. Fore example, a lot of the monsters have race times that are greater than 20 hours and the amount of diamonds you have to pay doesn't decrement over time so it's really financially unfavorable to the player almost blatantly so. That's why I feel super lucky to be able to breed all of these without having to spend a significant amont of money. Basic elements Okay. Air Monster: This is the only monster that has to be bought with gems right? Light Monster: Okay! Basic Hybrids Flower vs. Tiny Monsters Breeding Guide: Support.Tiny Monsters Breeding Results Chart. I do not include Fire (5 seconds), Earth (12 minutes), and Plant (18 minutes) in the diagramYou can help me and others by uploading the image of the egg (via tinypic, email, etc):D. Hi-res pictures are preferable I will the one who will crop the egg image, you just need to give me the raw image: D. Thanks guys Thanks to Dennis and others who have helped me and suggest me to re-make the page: D. Hope this can help you all. LM= Limited Monsters Remember all magic numbers, they are 5 (light), 18 (older earth and shadow), 21 (riddle),22 (elderflower plant), 23 (elderflower fire), 26 (air), 29 (dark silk), 34 (legendary) and 48 (elder). There is a glitch that allows you to receive gift (even if it is limited) when you breed hallow and gift together. Tiny Monsters Breeding Guide Main Page.Tiny Monsters Breeding Guides. There are lots of Tiny monster breeds combinations that you can do in the game. In this complete Tiny Monster breeding guide, we will walk you through the basics of these breeding strategies to help you obtain all of the monster hybrids. Please let us know if we have missed anything and check out our Tiny Monster guides. To follow and use this breeding guide, you can get a handle on how breeding progresses in the game by watching their generations. The higher the generation of these Tiny Monsters, the more breeding steps that breeding takes to achieve your result. Again, some of these results are not 100%, thus you simply have to keep on breeding until you get the monster you want. These are you basic monster breeding blocks. When you first start in the game, you need to buy one of these for coins before you can move on to hybrid breeding monsters. Fire Earth Plant Ice Electric WaterAfter you have built the Mystic Cave building you will be able to have a chance to make Mythic generation Tiny Monsters. To breed the Mythic ranked races, simply you breed monsters of the same elements. But it should note that the chance of making the mythical is not 100%. In addition, all the Hybrids listed in subsequent generations all have a chance to become Mythic, as long as you have the mysterious cave built. Gamelytic has noticed the following breeding formulas generation 1, because they are only 1 step away from you basic breeding monsters.
