Gmail Red Flag: A business in Laramie reported receiving a suspicious email from a company in a related field. The email was from a Gmail address, which raised concerns about its legitimacy. The sender offered a collaboration opportunity, proposing workshops and joint programs. However, the use of a Gmail address for business communication made the recipient wary, as legitimate businesses typically do not use Gmail for official correspondence. *CyberWyoming Note: Businesses should avoid using Gmail addresses for professional communications, as they can seem unprofessional and raise legitimacy concerns. Always verify the sender's credentials and contact information before engaging in any business partnership.*

New Phishing Attack Shifts Focus to Macs: A sophisticated phishing attack originally aimed at Windows users has now shifted to target Mac users. The attackers are trying to steal Apple ID credentials by using deceptive pop-up alerts disguised as security warnings. This campaign, which previously used Microsoft's servers to appear legitimate, has adapted to bypass new security features in Windows browsers like Edge, Chrome, and Firefox.

Now, with those protections in place, the attackers are focusing on Safari users, using pop-ups that freeze the webpage to make the warning seem more convincing. While more advanced users may spot the scam, less tech-savvy individuals could be vulnerable. – *Brought to you by Secure the Village & 9to5Mac*

AWARENESS • EDUCATION • OUTREACH

CyberWyoming Alliance's goal is for Wyoming to be the most cyber-secure state in the nation. To do this, we know that cybersecurity efforts have to be local, trusted, and grassroots in nature.

If abuse, neglect, abandonment, intimidation or financial exploitation of an older adult is occurring, report it to Adult Protective Services.

Basics of what DFS/APS can do:

- If an abuse/neglect case is reported and opened, an APS Caseworker will respond within 24-72 hours, depending on immediate danger or impending harm.
- APS is mandated by statute to notify law enforcement.
- An APS Caseworker will interview the vulnerable adult to determine the facts of the situation.
- APS works with the vulnerable adult regarding availability of community services he/she is agreeable to receive in order to ensure his/her safety.

Basics of what DFS/APS cannot do:

- APS cannot force anyone to accept help, adults have the right to refuse.
- APS cannot force anyone to reside in a nursing home, APS is committed to keeping vulnerable adults as safe as possible, in their own homes.

How to make a report:

Call (307)777-7564 or click on dfs.wyo.gov/about/contact-us/
 This is a link with contact information to each community in Wyoming that has a DFS office. APS abuse/neglect reports can also be made by contacting law enforcement in the community where the abuse is taking place.
