Your assessment is very important to improve the work of artificial intelligence that forms the content of this project CALIFORNIA PROPOSITION 65 You can create dust when you cut, sand, drill or grinding materials such as wood, paint, metal, concrete, cement, or othermasonry. This dust often contains chemicals that are known to cause cancer, childbirth or other reproductive damage. Wear protective gear. OPERATOR'S RESPONSIBILITY: Before you work with a nail, read and find out all the safety warnings. Keep an eye on the operating structures outlined in this guide. EMPLOYER'S RESPONSIBILITY: Spread this guide to everyone before allowing the use of nail. Make sure all operators read, understand, and follow all the safety warnings, labels, and structurings outlined in this guide. Danger indicates an imminently dangerous situation that, if left unavoidable, will result in injury or serious injury. Do not use any type of flammable oroxygen gases as a power source for nails. Use only filtered, oiled, adjustable air. The use of acompressive gas instead of suppressive air can lead to an explosion of nailerto, which will lead to death orserious injury. Do not exceed the maximum operation of the nail (120 psi). Nailer will not function. Do not use an acompressed air source capable of more than 200 psi. A nail can be a sign that will result in death of orserious injury. Never use petrol or flammable liquids to clean the thenailer. Never use thenailer in the presence of flammable liquids or gases. Vaporscould ignite from the spark and cause anexplation, which will lead to the death of serious injury. ● ● stay in a firmly balanced position when using or handling a nailer. Don't change or disable workContact (WCE). Don't tape tieor trigger WCEor in adepressedposition. Death or serious personal failures can result. Instructions for operating the Model NS219001, NS219500, NS319001 and NS349001 - Don't touch driverless triggers. Neverattach air lineto nail orcarry nailerwhile touching trigger. The fastener can be removed, which will result in death or serious injury. The warning points to a potentially dangerous situation that, if left unavoidable, can lead to injury or serious injury. Always turn off the nail from the airline before cleaning the traffic jams, adjusting orservicing thenailer, moving the nail, or when the nail is not in use. Always connect the air line, downloading any attachments. Framing Nailer Please read and save these instructions. Read carefully before trying to assemble, install, operate or maintain the product described. Protect yourself and others by watching with all the security information. Failure to follow instructions can result in injury, death and/or injury! Save instructions for future links.
