

Senior Platform Engineer (f/m/d)

Become part of waipu.tv - Germany's fastest growing IP TV platform. With our fibre-based infrastructure, we're delivering millions of Ultra-HD streams to our customers every day. With user numbers growing, we are looking for individuals who can take our production infrastructure to the next level.

As a Senior Platform Engineer you will be joining the Infrastructure & Platform Team. You will work at the center of our engineering group, being responsible for operating and improving our highly available platform.

Responsibilities

- Design, implement and maintain scalable software-based solutions to improve the reliability and availability of waipu.tv
- Take ownership of services and have the freedom to do what is best for our business and customers.
- Solve problems occurring with our highly available production systems and build solutions and automation to prevent them from happening again.
- Utilize and improve our monitoring systems to supervise the health of our infrastructure.
- Use Open Source software (Kubernetes, Prometheus, OpenTelemetry, ...) to extend our microservice landscape. Contributions welcome!
- Manage and scale our AWS-based and hybrid-cloud services.
- Improve and maintain our highly automated and customized Kubernetes-based Container Orchestration Platform.

Required skills:

- Experience with building, maintaining and operating complex and scalable distributed systems.
- Solid foundation in Linux administration and troubleshooting.
- Proven experience with automation tooling.
- Strong coding, algorithm design, debugging skills.
- Good proficiency in spoken and written German and English.

Desired skills:

- Extensive background in software engineering with Golang.
- Proven experience designing and operating highly available Kubernetes clusters serving production traffic.
- Experience with design and implementation of REST- and/or gRPC APIs.
- Strong experience with AWS.

If that sounds like you, don't hesitate to reach out to us via [jobs \(at\) exaring.de!](mailto:jobs@exaring.de)
