

# PRIVATE ART ADVISORY

& OFF-MARKET WORKS

A discreet and curated approach to art acquisition, connecting collectors with exclusive opportunities beyond the traditional market.

## **POSITIONING**

Operating within a private international network of collectors, artists and sellers, I facilitate off-market transactions with a focus on discretion and precision.

Each interaction is built on trust, confidentiality and long-term vision.

## **SERVICES**

**Art Advisory** — Tailored guidance for collectors, including acquisition, curation and collection strategy.

**Private Sales** — Discreet transactions between collectors, with access to off-market artworks. **Sourcing** — Targeted research and acquisition through a trusted international network.

## **APPROACH**

The focus is not on volume, but on relevance and quality. Each opportunity is carefully selected and aligned with the collector's intent.

Access is selective. Information is shared with discretion.

## **PRIVATE ACCESS**

Off-market works are shared with a selected circle of collectors.

Access is granted upon request and subject to profile alignment.
