ABCDEFGHIJKLMNPOQRSTUVWXYZ# -Select Language - This brilliant city built of gold, a far cry from innocence There's more than meets the eye around here to look at the waters of depth. The city of evil There sat a seven-headed beast, ten horns raised from its head By a symbolic woman sitting on her throne, but hatred undresses her and leaves her naked. Beast and Harlot. It is a place of residence for demons, it is a cage for every unclean spirit, every dirty bird and forces us to drink poisoned wine to wander with our kings. Fallen now Babylon the Great. The city, dressed in jewels and gold, thin underwear, Peace and pearls Her plague will come immediately as her mourners watch her burn. Destroyed in an hour merchants and captains of the world, sailors, navigators will also cry and mourn this loss of their sins, dumped in the sky beast and Harlot. It is a place of residence for demons, it is a cage for every unclean spirit, every dirty bird and forces us to drink poisoned wine to wander with our kings. Fallen now Babylon the Great. The day has come for all of us sinners, if you are not a servant, you will be struck to the earth. Flee the burning, greedy city, looking back at it to see that there is nothing around. I don't believe in fairy tales and nobody wants to go to hell, we made the wrong decision and it's easy to see. Now, if you want to serve higher or be king below with us, you may be in a city where your future is set forever. [2x] It is a habitat for demons, it is a cage for every unclean spirit, every dirty bird and causes us to drink poisoned wine to swallow with our kings. Fallen now Babylon the Great. Jealousy is an ugly word, but you don't seem to be worried and vice versa behind my back, but now I'm here Don't need anyone to stick with me, although everyone that I defeat Don't need you, camaraderie, this rage will never go Hate fuels my blood, I'll burn you (you can't help me) One king watch riders don't, I'll fight 'til end (I won't help you) I can't trust anyone, witness and see it in my eyes Now I can understand putting faith in you one last time It's sadness that feeds your lie Fall away, can't buy time burned it anyway and we're at it again I'll turn around another fucking war, a man I don't know where to start with, but I'll start with radical leaders Their steps we follow Running, don't go back and fight, too much you'll lose (And as clowns you'll follow suit for blood between red and white and blue, but it's too deep for you to see and everyone will eventually because it's in sight you take the left , I'll take the right, I feel the hatred you built for me and I say, Pay attention, babe.) As they thank the Lord, the blind cannot see how plague is fed into the brain, deadly disease But it wasn't a sin, a pity for life in judgment of every action And how they feed your mind with this shit you forget how to talk, how to ask all the business questions at hand tonight, get people to choose (I see a different side in you, but there's not much more I can do from the outside looking at you government listening' push you to the story of the immortal father of the mortal son to give them your mind and all your wealth cycle would be reviving yourself) If they had it my way I would burn in hell and your future fuckin' disaster you don't see? Don't give them all power when your future is in desperate child trouble, as they thank the Lord blind can't see how the plague is fed into the brain, the deadly disease I would escape tonight with my mind still intact you have to do it well Easier to say than to do with where to hide and having no place to (run) Run from the state . I see you but you run from your frightened atonement system Most will argue that I live by lies (I live by lies) when pointing out that it is easy to predict these things, predict these things Every color has its side (I have a side), they live together to vote and most cover the same dark ties Please help us, please save us, of course they control we are all the same up on the cross , crucified their problem drove their nails and let it rot family and friends, it won't matter after all I'm sure they'll understand Now look at the world and see how people bleed As I sit here and wondering the fight as you've sold your mind, body and soul looking at the fields so green I know it sounds obscene I see that you are living tomorrow, but the decisions you made will leave you empty as they thank the Lord blind can't see how the plague is fed into the brain, the deadly disease I would escape tonight with my mind still intact, you have to do it well Easier to say than to do without a place to hide and not places to escape. You fell asleep in denial Look at how we dyin' How it ends, I'll never know Just Live Your Life as I am the One who makes a beast of himself gets rid of the pain of being man No! Found himself here in fiery bliss, will not lose his will to stay. I tried to drive all night, heatstroke deprived the weather, barren empty sights. No oasis here to see, sand sings deadly words to me. You can't help me when I start burning (all alone). Too many doses and I'm starting to get gravity. My confidence leaves me alone (all alone). No one can save me and you know, I don't want attention. As I adjust to my new sights, rarely tired lights will take me to new heights. My hand is on the trigger I'm ready to ignite. Tomorrow may not make it, but everything is fine. Psychic fiction follows me; Show me what it's like to be free. You can't help me when I start burning (all alone). Too many doses and I'm starting to get gravity. My confidence leaves me alone (all alone). No one can save me and you know, I don't want attention. Found himself here in fiery bliss, will not lose his will to stay. These eyes won't see the same thing after I turn over today. Sometimes I don't know why we're better off living than dying. We look to the sky for answers to our lives. We can get some solutions, but most just get past us, don't want your absolution reason I can't do it right. I'll make a beast of myself, get rid of all the pain of being human. You can't help me when I start burning (all alone). Too many doses and I'm starting to get gravity. My confidence leaves me alone (all alone). No one can save me and you know, I don't want attention. So sorry you're not here I've been long, my vision is so incomprehensible. Now take a trip with me, but don't be surprised when things are not what they seem. I know that from the beginning these good ideas will break your brain apart. Scary, but you can follow me I'm too weird to live, but too rare to die. Keep writing that you just raped yourself (nothing can take my mind off them) Don't you ask about me, ask a fight someone else (once I've fallen there are a lot of stories to tell) I can feel it, won't embrace it, it's overwhelming how far you take it (stuck in a state of questioning) And don't you tell me what you know that we are destined , you will not convince me, I will not listen (insult the building, you put our lives on hold) Cart and scattered again, I feel so low you spend breathing while fuckin' with me, my blood is so cold My destination is always unknown, I will find my way there But fucking bastards always spend time I won't be a victim, but the first throw stone Suffocated nights in the bar room fights as the metropolis takes its insinuation and don't you try to stop me, it's a place you'll never learn to learn try judging or taking shots at me, I'm never going to let you grab control play your game and leave because your integrity doesn't mean shit crawling on me you fucking parasite and I'm going to take you off the label of me, it's ok, I'll be someone else (nothing in front of me but holes ahead) Lying about my life, there's a story to tell (the lights went down , was on the edge, and I fell) Oh, you're so insightful, let me remind you to twirl and break me, have to make you worry (a long way and you're right there) a two-way liar, don't try and know me, cheating brings fire, ensures you can't breathe (pick to pieces my body below) I've never bothered with all the rumors , too much rubbish (all the same) I'll stand right here (I know my appointment) , give you a fake cheating liar (no shame) Never accept my side, I know you're never right, I justify the means (nothing that seems) I'll stand around and fight, but there's no point tonight, was chained to this garbage machine and scattered again, I feel so low you're wasting your breathing while fuckin' , my blood is so cold My destination is always known, I'll find my way there But samozr you're mad? I'm walking on these roads alone and now you've seen here My feelings that I have to you are absolutely clear (I'm in control of this trip) My devil's appetite tonight and now I'm fine, but you fucking bastards always waste your time playing your game and go because your integrity doesn't mean shit crawling on me you fucking parasite and I'm going to take you I'm not going to be a victim , but the first to throw a stone sedated nights in the bar room fights as the metropolis takes its insinuation And don't try to stop me, it's a place you'll never know Don't try to judge or take shots at me, I'll never let you grab control don't try to get the better of me (no one can help but your own self) City makes my body hurt (lonely, don't try and prey on me) Don't try to get the better of me (no one can help but your own self) The city makes my body hurt (lonely, don't try and prey on me) And my body is rubbish and low, but for you I will never show myself or what's inside and I've seen it all before and I settle the bill , I will never join your side grab a day or die regretting the time when you lost it empty and cold without you here, too many people to hurt over I see that my vision burn, I feel that my memories disappear over time But I am too young to worry These streets we are traveling on will pass our same lost past I found you here , now please just stay for a while I can move on with you around I am handing you my mortal life, but will it be forever? I would anything for a smile keeping you 'til our time is done We both know the day will come but I don't want to leave you I see that my vision burns, I feel like my memories disappear over time But I'm too young to worry Melody, memory or just one picture grab a day or die die The Time You Lost It's Empty and Cold Without You Here, Too Many People To Hurt Over Newborn Life Replacing Us All, Changing This Fable We Live in Is No Longer Needed Here, So Where Are We Going? Are you going tonight, follow me past the wall of death? But girl, what if there is no eternal life? I see my vision burning, I feel like my memories disappear over time But I'm too young to worry Melody, memory or just one picture Grab a day or die regretting the time you lost It's empty and cold without you here, too many people to hurt over trials in life, the question of us exists here, don't want to die alone without you here , please tell me that we have a real [Solo] So what if I never hold you, yes, or kiss your lips again, oh? So, I never wanna leave you and memories of us to see, I ask not to leave me grab a day or die regretting the time you lost It's empty and cold without you here, too many people to hurt over trials in life, questions us existing here, don't want to die alone without you here, please tell me we have real silence , you lost me No chance for another day of Silence, you lost me No chance for another day [2x] (I stand here alone) Silence, you lost me No chance for another day (Falling away from you, no chance

of returning home) Silence, you lost me No chance for another day I slip down the wasteland that my hunger takes your life , prey to keep me alive, so Mercy is all you need, charity is empty in me Can't you feel the poison rising in the morning and clear at night? You may feel that my power is destroying you right to heart from a poisonous bite That's how I shed my skin tonight, but my fangs are hard to hide And you know you're going to die, so Mercy is all you need, charity is empty in me Can't you feel the poison rising in the morning and clear at night? You may feel that my power destroys you right to heart from a poisonous bite that I have no regrets about, can't escape the decisions made for me, no control Fire burns but never dies wrapped around I'll bury my fangs inside Making your way through the night when you're still in my sight You're running away because you know that you cannot hide my cold-blooded hatred instincts; for you I am the bearer of fate the wrong place, and now is the wrong time, now terror is all you find whoa. Can't you feel the poison rising straight to the heart of a poisonous bite? Can't you feel the poison rising in the morning and clear at night? You may feel that my power destroys you right to the heart from a poisonous bite I can't regret, can't escape the decisions made for me, no control Fire burns but never dies, yes, wrapped around me my fangs inside being inside today - you're there all alone Disappear from my sites - poisonous control You won't do it right - my appetite has grown lost your final fight - no love will be Slay inside today - you're there all alone Disappear from my sites - poisonous control You can't do it right - my appetite has grown lost your final fight - no love will be shown Man is becoming increasingly corrupt now, an ungodly, wicked and cruel Soulless man stood silently, Mary's words rang as true as the flood worse, spread the word, it's all because of Don't Kill the Messenger Girl As if we haven't sailed enough in this life of misery The voice of your prophecy , shed us a little light Feel the sorrow at the chance of humanity surviving a swallow of lies and swim in our own tears Blow in the dark, but it injured our will We will not be here tomorrow, hold on to me the last time we grew up in the number of six hundred and sixty-six breaks of war, sign of the end, perpetually banished view into the sky for knowledge , stars aligned tonight Eclipse and heaven will fall Now I know that has seen all this in my life of misery Voice your prophecy, shed us light Feel sorrow for the chance of humanity surviving swallowed lies and floated in our own tears Blow in the dark, but it hurt our power Dust the apple off, savour every bite And deep inside you know Adam was right Lust and power , indulgence, without fear We will not be here tomorrow, hold on to me for the last time as prophets shed light on what will come the crowds have gathered your time precious, they explained, there is no time to worry, the Messiah will come to stay awake today, darling, hold me in your hands It will be our last days and I can't let the walls fall down , churches are burning, women are prazed, children are crying Flesh bursting , some still beat In this world of misery Voice your prophecy, shed us light Feel sorrow for the chance of mankind surviving swallowed lies and floated in our own tears Blow in the dark, but it hurt our will Dust apple off, savour every bite And deep inside you know Adam was right Lust and power , indulgence, without fear We won't be here tomorrow, hold on to me the last time My story begins the day they said: She can't be found. The news is so dark, the heart stopped, I stood silently silently without sound Everything is designed, it is finished, the mother lies with my father and sister too cold-blooded, they suffered, whipped outlaws after you sorrow swallows my cries The power of the world on my shoulders The power of the world is on my side The power of the world - that real stering ice in my veins for those who have died as my family fades, you've taken my whole life There's nothing to say Revenge for the dead, kill everyone who crossed me on my suicide path, I never planned to come back, I want it, I need it, revenge dripping from my teeth Don't need anything to feel the power, and bring the killers to nothin's knees to revenge to get (you know, I'll never be the same) So the taste of my breathing I'm close close (so desperate on the last day) Sadness swallows my screams The power of the world is on my shoulders The power of the world is on my side The power of the world - that real sucker ice in my veins for those who died I saw my family fade, you have taken my whole life There is nothing left to say Sitting in silence with heaven above me I prayed every night near their graves While I was looking for closure that I can no longer turn my hand away I stand before you; I will sin when I have to, but now I leave your side to avenge the pride of my family I have seen my family fade, you have taken my whole life, there is nothing to say... The power of the world on my shoulders The power of the world on my side is the Power of the World - that real resin ice in my veins for those who have died so far forever now alone, more punishment has been imposed on me by the Killer falling from the light, I will miss my family, I will never be ok That's all she wrote... Passion is in my eyes, I lived it every day, but how could you go, throw it all away? In my dreams it's me and you, It's there I've seen it all come true Since time went on to believe you grew up, So one thing left for me to do I feel it burning inside, burn in me as the rising sun rose into the sky, took away the only thing I loved I know after tonight all your strength crumbles in my hands So don't worry , I'll be fine when my life is over, I'll leave that scar (And I felt like I needed you there every note, and every word seems so hard to take, finally we're destined) Smoking a gun in your hand, now you don't realize what you did put a bullet in your back, your hero, since you were as young as you could kill a man that brought salvation through your pain He must mean everything to end all this shameful passion in my eyes, I lived it every day, but how could you go throw it all away? In my dreams it's me and you, it's there I've seen it all come true Over time faith in you has grown, So the one thing left for me to do I started here so young and helped you get along Just did it for love and people healed through us Don't live your life for nothing, don't take it out on me you cracked , so just remember , I am not your enemy I do not deserve to fall in this way, a person who felt betrayed I felt so down now you are around to save me Every note and every word I listen to sometimes the problems seem too deep to take (too hard to take) Sometimes I cry thinking that my future looks so bleak Finally together we are destined , I know it is better for us in the end someone hears me , someone stops me, someone listens, why aren't you listening? Passion is in my eyes, I lived it every day, but how could you go, throw it all away? In my dreams it's me and you, it's there I've seen it all come true Eventually gone faith in you has grown, so one thing that for me to do In my dreams it's me and you, it's there I saw how it all came true As went with faith in you grew up, so one thing remained to end you Aahah looking at the flood, praying that the sun would never go up. Live another day in disguise. Those feelings can't be right, lend me your courage to stand up and fight tonight. Ooooo Stand up and fang. The fight is raging and on to challenge me, you have to be strong. I'm going your land, but I don't belong, two million soldiers can't be wrong. It's not fun, but I've been here before I'm away from home and I'm fighting your war. (Not as I imagined it, I wanted better things) Some fear others are being killed for fun, I shot the mother right in front of her son. (Take this out of my mind, and please erase my dreams) Fight for honor, fight for your life. Pray to God that our side will be correct. Even though we won, I can still lose until I make it home to you, I see that our tear-filled mothers grew up so fast where those years went? Memories don't give you a cry unless I come back tonight. So many soldiers on the other hand, I take a record of their lives so they can't take mine. (It's scary to make it alive now killing everything I know.) No one tells me all the reasons why we're here. I have a weapon, so there's nothing to be afraid of. (Another day, another life, but nothing real to show for) Fight for honor, fight for your life. Pray to God that our side will be correct. Even though we won, I can still lose until I make it home to you, I see that our tear-filled mothers grew up so fast where those years went? Memories don't give you a cry unless I come back tonight. Looking at the flood, praying that the sun never rises. Live another day in disguise. These feelings cannot be right, lend me your courage to stand up and fight. Watching the number of dead rise wondering how I am alive. Someone else's blood on my hands, I shot everything I can There are no quiet nights watching your brothers all die to destroy all their plans without thought of me No thought of me nor thoughts of me about Walking through the city the lonely memories that haunt pass by Assassin walks your streets tonight Forgive me for my crimes: don't forget that I was so young fought so terribly in the name of God and country thanks to TinyMassacre, gwymtlege for sending these texts.
