The guide also provides a complete list of periodic maintenance procedures. The most common faults are also given and how to detect and fix them. We hope that you will be able to solve many of the problems that arise. Doing some procedures takes so little time that it is easier to do it yourself than to register at a techahok station, drive the car back and then pick it up. In this way, you will be able to save not only your time, but also money. This service repair guide provides a detailed illustrated description of the car's various components and mechanisms. All maintenance and repair procedures are described step by step and illustrated.
