PRESIDENT'S MESSAGE

A warm Welcome to Shivneri School

Learning should be an enjoyable journey and that journey starts at
"SHIVNERI FOUNDATION, KHANAPUR."

We are offering something special and invite you to come and share it with us. At "SHIVNERI FOUNDATION" we have high expectations from our students. Nowadays the Syllabus, in particular, requires a student to be actively involved with their own learning. It encourages them to explore and develop their own particular talents and intelligence so that they can grow as competitive individuals.

Studying a new course is an exciting and challenging experience and "SHIVNERI FOUNDATION" provides an amazing opportunity to all those involved with its early years to discover themselves whilst particular in self-development. To be a part of this creation is a privilege and rarely do students have the opportunity to be both, part of creation and beneficiary of the education system. It can be one of the most enriching and long-lasting experience one can have.

I personally believe that the curriculum should only not be based on the acquisition of knowledge but also on the development of problem-solving and critical thinking skills. Using a broad-based & culturally diverse curriculum, we emphasize literacy, written and oral communication, the creative process of the arts & music, realizing, communicating and problem-solving in sciences and mathematics, the pursuit of the physically active and healthy lifestyle & technology to enhance the learning and discovery process in the classroom. In practice, I believe student are curious by nature, that all people are creative if they are allowed to develop their unique talent and should be able to initiate all their own activities and created their own environment. The physical campus, the staff, and the equipment are there for the student to use as the need arises. The "SHIVNERI FOUNDATION" strives to enhance each students self-worth, confidence and pride by providing curricula programs and activities that encourage participation in multidimensional experiences to make the most of the advantages offered by FOUNDATION community simply means
"We shall do better than anybody else can"

SECRETARY'S MESSAGE

Evolve.

Education is not only about classrooms and books. The Definition of Education has come a long way, it has been evolving since the first Human Being was born. In today's world, everyone is a student and everyone is a Teacher. We keep learning new things every day and we keep teaching new things to our acquaintances every day. When we were young the school and education had different agenda and environment altogether. Kids these days have different struggle than what their ancestors had. Education will give them the strength to struggle, to fight, and ultimately to evolve into a Better Human Being than their ancestors. Beings who will be better at science, better at art, better at sports, better at their profession, and ultimately better at Humanity. Beings who will be more social, more generous, more curious and more peaceful.

Our goal in life should be to keep evolving.

REINFORCEMENT CLASSES

We believe every student has his own pace and method of learning. To help students learn with confidence and be good at the concepts, our teachers take extra efforts on them. After the school hours, we have extra classes called reinforcement classes for all the students where teachers take revisions, practice and doubt solving sessions for students.

MONTHLY TESTS

All the students have monthly tests for every subject. This method is used to help students practice their curriculum and clear their mistakes, if any, before the final exams. Parents are informed about the monthly test reports on an open day and also via Shivneri School App.

INTEGRATED COACHING

Integrated Coaching is specially designed for students aspiring to become an engineer or a doctor. It emphasizes on concepts and basics of the subject which helps students to answer MCQs (multiple choice questions) easily. Comprehension and Practice is the key to success in competitive exams. Our skilled faculty and digital learning help students to comprehend in a better way. The course does not offer only the entrance exam coaching but also 12th Science, for both HSC and CBSE. Our Junior college is affiliated with the state board and CBSE Delhi. For exams like NEET, CET, IIT JEE different approach towards problem-solving, question paper solving is necessary. Extra classes for the students of AITP makes sure that students get to know all the tips and tricks to solve complex problems and questions. These classes also include the query sessions, wherein the whole class revise the concepts and ask their difficulties to the Professors. Our Professors make sure that every query of the student is solved before they start a new topic. For the students of 11th, these extra classes are on weekends and for 12th, the frequency increases. When the exams are closer, the schedule for extra classes is different.

This money is used for student's extra requirements towards grocery items like soap, shampoo, stationery requirements like extra books, notebooks and uniform requirements like extra pair of shoes, extra t-shirt, etc. whenever required.

SETTLE INTO A NEW HOME

More than 500 students from all around the world call Shivneri- a Home away from Home. It is a place where you will make lifelong friends. The community is welcoming with a calendar full of social, sporting and cultural activities while 24/7 academic and well-being support is right outside your door.

WARDENS/DORM PARENTS

Age appropriate care embraces traditional family values, and rectors provide round-the-clock guidance and support at Shivneri. They serve as a dedicated contact for your parents or guardians, helping you keep them up-to-date on your progress. Living apart from your parents, your home, and the pals you grew up with isn't always easy.

Whether you need guidance, a quick chat, or just a friendly ear, you will have the peace of mind knowing someone will always be there. They also encourage socialization in the campus by offering casual get-togethers and informal meetings.

ROLE OF A PARENT

The education of a child does not rest solely inside the walls of a classroom, nor is it limited within the confines of a school building or its campus. Rather, it goes beyond that, back to the child's home and to wherever the child is at in the company of parents or delegated adults. Thus, the relationship between parents and teachers are crucial to the effective education of the child. Not only parents and teachers, but also other staff members, supervisors, and administrators must work collaboratively in order to be effective in this enterprise.

We encourage our parents to continuously monitor the progress of their child by making appointments with the concerned head via telephone or an e-mail or school app. This gives the parents the chance to ask the mentors questions and clarify any issues regarding their child's school work, testing results, behavior, and work with them to find ways and to set goals and expectations in order to improve their academic performance. Parents can also meet with the dorm parents, rectors for any evaluation of their child's attitude and behavior in a dorm and throughout the campus as well as their participation in the school's programs.

Parents' attendance for Parent Teacher Meetings, Annual Gathering, Annual Sports Day is mandatory.

Shivneri has opted for a new instant school-parent communication mobile app 'SHIVNERI SCHOOL' through which parents will have instant news about school's activities and child's schedule, exams, reports, etc.

ALUMNI

We are proud to boast such a diverse body of alumni, many of whom hark back to Shivneri at regular intervals. Our graduates include business leaders, doctors, engineers, sporting champions, artists and campaigners. Over the course of our 15 years, Shivneri Residential School has seen many students, staff, and parents come and go through our ever-changing campus and community.
