Previous studies have adopted the terminology of "canon," which refers to the official list of books that are considered scripture by a particular religious tradition, as opposed to "canonicity," which refers to the process of determining which books are included in the official list. This distinction is important in understanding the history of the development of the Christian canon, as scholars have debated which books should be included in the official list and how this list has evolved over time. When we examine the exegetical, historical, and theological arguments that have been used to justify inclusion or exclusion, we can see that the process of canon formation was a complex and multifaceted one, involving a variety of factors such as tradition, authority, and cultural context. Ultimately, the canon is a dynamic and ongoing process, as new texts and interpretations continue to be considered and debated.
