The new 3rd edition of the AIAG C-11 was released in October 2019. See below for the new build-up and essential content, as well as the new 3rd edition process tables. The North American Automobile Action Group (AIAG) is the publisher of C1 standards. The SI-11 payment system is a self-assessment of the coating system for galvanic coating and should be carried out at least once a year. This standard is an annex to IATF 16949 in accordance with specific requirements for customers and is valid for all car suppliers worldwide who have entered into a procurement, supply and quality contract throughout the supply chain. As a long-time member of AIAG, Top-M-Systems has already specialized in the introduction, development and qualifications of employees, as well as the training of auditors in accordance with AIAG rules for C-11 galvanic coating processes in the European and global automotive supplier markets. The new 3rd edition of C1-11 2019 Here's an overview of the changes and modified process tables of the new C1-11 3.Version: ggt; Top-M Information Service for the new C1-11 to download Structure, Content and Elements C1-11 Cover Sheet Basic Data Paid Organization Audit Areas according to the relevant C-1-11 Process Table Contact Data (auditor, auditor, company, participants) Audit Results C1 Audit Items 1-2 Item 1 : Responsibility for management and quality planning Item 2: Responsibility for material flow and material processing Elements Of Audit Item 3 Audit Elements Item 4 Title Audit Work and Key Data, Regarding Proven Products Issues relating to the Process Flow Process Customer-Specific Requirements relating to the Product Operator and the quality of liability Of Responsibility Requirements Transport Requirements B Processtable C Decorative Coating Metal Substrates Processtable D Decorative Coating Plastic Substrates Process Etable Electropolish and Chrome Flash Process Ftable Processtable G Electroless Nickel Coating (Chemical) Process H Hydrogen Embrittlement Process Process Processtable I Process Management process and testing of The Equipment Verification and Calibration Equipment Top'M-Systems Global C11 Service We conduct C1 process checks in your company and in your locations We conduct an audit of the C1 process on your external suppliers Training as C1-11 auditor in accordance with the rules including seminar documentation, examination and issuance of certificates as an official partner in AIAG training We offer licensed SII training modules (AIAG C1 Self-Assessment Understanding) and Basic SLM Knowledge.
