Cadette entrepreneur badge requirements pdf

Beasts have always provided people with communication, joy and transportation, but today they are also trained to help people with disabilities and find lost people. In this badge, learn about many ways animals help peopleWhy you are preparing for a nanny in the future or you have already started, this badge will help you become the best nanny you can be. Over the centuries, people have developed methods of creating and binding paper to share ideas, knowledge, and inspiration with each other and with future generations. In this icon, try bonding, sewing and folding your way to forming your own book. You will create some impressive gifts and souvenirs When you have earned this badge, you will be able to track your money, save on what you need and want, and help others by giving. When you have earned this icon, you will know how to write an effective business plan for your cookie business. From newspaper cartoons to comics and graphic novels, comic art is a broad, exciting and growing area. Comics are sometimes described as consistent art, although some are just one panel. So what is a comic book, right? It's a visual story, telling you, however, you'd like to tell it. Let's do it! When you have earned this icon, you will know how to go online to find the best deals on the best products in the safest way possible. The film doesn't just tell a story, it shows a story. If you could show the world history, what would it look like? Bright and cheerful? Fast pace and full of changes in scene? How visual will it start and end? You've probably spent countless hours watching movies. Now is your chance to show other food not just about maintaining a healthy weight. Eating well helps you inside and day out. Choosing the right food can help you sleep better, less stress and get smooth skin, shiny hair and strong nails. In this icon, learn how to eat to keep your skin glowing, your mind focused and your energy flowing. When it comes to innovation, fantastic ideas and creative inventions are only half the game. The other half includes figuring out if people will buy your invention or use your idea. In this icon, you'll learn what it takes to turn a great idea into a business. From friends playing in the park to countries competing against each other at the Olympics, the Games unite us all. And girl scouts have been inventing their own games since 1912! In this badge, you'll experience it first hand by organizing teams and activities for an exciting, do-it-yourself field day. When you have earned this badge, you will know the realities of budgeting and how to practice financial habits that will help you in the future. Democratic governments exist, help citizens with different opinions find common ground - a place where people's thoughts, opinions and beliefs intersect. That's what it's all about. explore how our government is doing this and how you can, too. Girl Scout Way is a compass that can help you as you carve out your unique place in the world. Our proud traditions offer a solid foundation for building your dream as part of the global sorority. Join thousands of other cadets to lead the way for Girl Scouts in our new century. When you make a good sportsmanship habit in games and in life, others want to play with you, hang out with you and live up to your example. So whether you are a dedicated athlete with your chosen sport or you just like to enjoy a casual game among friends, this icon will help you get more fun on and off the field. When you have earned this icon, you will know how to create a marketing plan for your cookie file business. Our digital world makes it easy to stay connected and share friendships, memories and ideas. But we've all heard embarrassing stories in which people want them not to hit the send button. Once you've sent an email, it never goes away. This icon is all about knowing how to make positive choices in the online world. Culinary possibilities are as diverse as the globe of the people who cook them. In this icon, cook dishes from different times and distances, and find out where your taste buds want to travel. The night has captured the imagination since the time immemorial. But with modern electricity, it is easy to lose sight of the mystery and beauty of the world after sunset. So grow your imagination and expand what you know (or think you know!). Turn off the lights, tune in to your senses and go out into the night. They call it a scenic presence: the ability to be yourself and connect with people - whether it's one person or the whole crowd - and seem comfortable all the time. The talent of the great presenter to the transmission of points is clearly and powerfully useful everywhere, not only in politics or on stage. Fortunately, you don't have to be born with these skills; You can develop them. In this badge you are a test subject, and your life is your laboratory. You will learn how scientists measure happiness and you will put their results into action. You will also get to perform a happiness experiment on your friends or family, all with the aim of making your world a happier place. When it's a thrill that makes you laugh, or a fantastic twist, a movie or TV show can seem like magic. And the great show starts with a great script! Writers write scripts for the film. In this icon, put all your browsing experience to good use - let it inspire you as you try your hand at writing for a large (or small) screen. Special Agent wears a lot of hats - detective, scientist, psychologist, law artist, etc. No wonder novels and shows about their work are so popular! In this badge, grab glass and microscope and open open open skills in one of the most interesting and demanding jobs for investigative minds. When you've earned this icon, you'll know how to set big goals for selling cookies and come up with creative ways to achieve them. Join your favorite girl scout adventure! Go to the back country, where you will explore nature and challenge your body as a trailblazer. In this icon, you'll stay at least one night on a jack-up or primitive site, so be prepared to learn some new outdoor skills while you share fresh air fun and games with your Girl Scout sisters. Take a naturalist's hat and be ready to learn the trees - from shade to science, fruit to the forest and lumber legends. Knowing trees is loving them. Woodworking gives you a great sense of accomplishment; You can do stylish, useful things for yourself and others. It's also fun! In this icon, adding to your talents with the skill of Girl Scouts has been refinement for 100 years - the ability to do it yourself. The entrepreneur icon is part of the badge This is your story - tell us! badge, introduced in 2011. For badges issued in 2011, scouts must complete all the activities listed to earn the badge. The contents of Brainstorm's show business idea Ortn being an entrepreneur isn't just about making money. It is also about giving people a product or service that helps improve their lives. Business can be a powerful way to make the world that we live in a better place. At this point, choose a choice that will help you identify the problems your customers face. Then, brainstorm 25 ideas for products or services that could help solve these issues - and improve your life! CHOICES - DO ONE: Interview your client. For example, if you choose classmates to eat lunch at school, your client may be another classmate or one of the people who work in the cafeteria. Identify problems and brainstorm together. OR Become a keep observer. Watch people do their work in your chosen location. You can do this in one sitting, one day, or for a few days. Keep your laptop close by to grab your ideas when they come to you. Or brainstorming a group. Brainstorm with other Girl Scouts, friends or family. This choice works best if the people in your group have firsthand experience - or they are customers to know the customer situation well. Improve one idea Now that you've come up with a bunch of different ideas, take a critical look at them. Choose the idea you think is best, select one of the following methods to make it better, and fill in information about your improved ideas in the chart on the next page. CHOICES - DO ONE: Divide you to different parts and improve each part. For example, if one of your ideas for classmates to have lunch at school is a lunch box that is attached to a backpack, backpack, can divide it into joining, closing and materials. Then you would develop a strong method of fixing, reliable closure, eco-friendly fabrics. OR beat your competitors! See how others innovate for your client - and make your innovations even better. See the box on the next page for tips on how to do it. OR Use a guide. Creating guidelines that you should follow can help you focus - and lead to a better idea. Use one of these guidelines to help you improve your idea, or come up with a guide on your own: an older person should be able to use his little child should be able to use it It should be very accessible Someone living 50 years now should be able to use his Beat Your Competitors to use these steps to help you improve your idea. If the idea is not patented (see last page), nothing will stop the inventor from making a good idea and make it better! Find three other products or services in your innovation field. For example, if your neighborhood had friends dress up at school and you decided to pursue the idea for a party-dress rental service, you can check out the thrift store, the company's costume rental, and the department store. Draw or write down the components of each product or service. For example, you can note the cost of dresses in each location, the time it takes for their examples, the choice and how employees treat customers. Analyze each component to decide how to make the best product or service. For example, your dresses may cost less than renting other stores. You could have a comfortable dressing room with places for girls to help each other choose the dress that is best for them. Your choices may include donations from fashion stores. You might not have all the sizes of each dress, but you could stand up for it with prices even lower than the thrift store, and giving each dress added value - a card that gives you tips for creating your own corsage to wear with the dress. IMPROVED INNOVATION IDEA Original Idea: What It Is: How It Works: An Improved Idea: Why It's Good: Sketch Your Idea Here: Get on the Financial Side Of ThingsEdit Coming Up With a Good Idea is just the first part of starting a business. Entrepreneurs should consider things like what their product or service can cost to do, what customers can pay for it, and how to let people know that it exists. CHOICES - DO ONE: Seed money. Seed money is the money you need to start your own business. Use the Seed Money sheet on the next page to find out what it will take to make your idea and sell it. OR Business A business model is how an entrepreneur sells a product or service. Mall stores make money by selling the product for which you pay. Magazines make money by putting ads in a magazine. Use the business model worksheet on the next page to help you present how your idea can make money. OR Merchandising. If your innovation is a product, go to a store that can sell it. Decide where your product can be displayed, or merchandised. If you invented a new dog leash, it will go to the pet section. But where else could it be traded? Maybe next to sneakers, because people like to run with their dogs. Write down at least five places where your product can be sold. FOR MORE: Design of eco-friendly packaging. Will your leash be sold wounds around recycled cardboard? Or, will it hang with a price tag attached? Designing for Persona to develop the best product or service, businesses often create a persona. For example, a bicycle company designs a mountain bike for girls. They can create the persona of a typical girl who rides a bike: She is 13 years old, loves mountains and outdoors, and loves her bike to look different than her friends' bikes. The company will design a bike with the right amount of gear for it to drive and tires that can handle a rocky trail, and include a variety of wooded decals it could stick to make it its own. SEED MONEY WORKSHEET How much money do you need to start selling your idea? Every business needs to figure out how much money it should start - and where that money will come from. Calculate how much money you need to start making and selling your idea. MATERIALS If you make a product, what components do you need to buy in order to do this? If you deliver a service, what materials do you need for this service? Finally, how many of each item do you need? Reduce the cost of your materials. EXAMPLE: For the hammer, you need to buy metal for the head and wood for the handle. To repair the car you need spare parts. TOTAL - Number and quantity - Cost - if you produce a product, then if you produce a product, if you deliver a service, what equipment will you rely on? EXAMPLE: For the hammer, you need the equipment to attach the head of the hammer to its handle. To repair the car, you need a drill and MATERIAL TOTAL - Number and quantity - Cost - cost - - - - Your idea depends on people? How many people do you need to hire? Reduce the cost of your work. EXAMPLE: For the hammer, you may need to hire craftsmen to make the hammer. To repair the car service may need to hire tow truck drivers to pick up customers whose cars have broken down. TOTAL - Number and quantity - Cost - Total material costs: - Total initial costs, total equipment costs, total costs and total labor costs. How much will it take to start selling your idea? Whenever someone wants to start a business, they need to think about where they will get the initial costs, or seed money. What are your ideas? Materials - Ideas for earning seed money: Equipment - BISNES MODEL WORK Every business has to figure out how they are going to make money - and there is more than one way to structure a business. Learn how the idea of a product or service is changing as you use these four ways to build a successful business model. Now try it with your IDEAS business! SALES: Sell a product or service to your customer. EXAMPLES: Shoe store sells shoes. Dry cleaners sell their cleaning services. Sell one time using a mobile phone with a limited number of minutes on it. YOUR IDEA: UNIT SALES ADVERTISING FEES: Sell other companies the opportunity to advertise. EXAMPLES: Magazines sell advertising space. TV sells commercial time. Give a free phone with free minutes. Charge money from other companies to be able to send text messages to your customers advertising their products or services. YOUR IDEA: ADVERTISING FEES FEE PER USE: Sell customer goods and services based on consumption or consumption. EXAMPLES: The electric company sells kilowatts of electricity. Charge customer for every minute they use. YOUR IDEAS: UTILITY FEES SUBSCRIPTION FEES: Charge a fixed price for access to your product or service for a certain period of time or a series of applications. EXAMPLES: Gym membership and magazine subscriptions. Charge the customer with a fixed price for a predetermined number of minutes. YOUR IDEAS: SUBSCRIPTION FEES Imagine creating a businessEdit you researched your client, improved your product, and considered how your business idea can make money. Now it's time to practice what it's like to put it all together, break it up and take part in the most important step of innovation - getting feedback! Use one of these methods to prepare for the promotion. CHOICES - DO ONE: Write a five-day business plan. Creating a business plan should help you develop your idea more fully and prepare it for others to show for feedback. Check the box for more information on what you should include. OR Develop your step. Create at least five slides to explain what your product or service will be, who will use it, and the research and development that you have done to refine your business ideas. Tip: Check out online free slide presentation software - there are several innovative types that allow you to organize information creatively. OR Make a mock-up of advertising or advertising. It can be a printed ad, storyboard or script for advertising, or the ad itself. HOW WRITE A 5-POINT BUSINESS PLAN Your plan is to explain these five parts of your business. Big Idea Describe Your Business Idea in a few suggestions - what is it, and why is it great? Need Who is your client? What needs do they have, what can you meet and for which they will pay? What you are selling give details about the product or service that will offer. The contest names three businesses similar to yours and explain what makes yours different. Finance How will your business make money? Explain what you found out in step 3. Learn more to explore Create a Brand. The brand gives your product or service an identity that sets it apart from its competitors. First, come up with three adjectives that describe your brand, such as eco-friendly, simple and independent. Then select a possible brand and design a logo sample that reflects your personality. The practice of sharing your business ideais a good innovator asks and listens to constructive feedback. In fact, failure is encouraged - if you don't mess up at first, how will you know what can be improved? Try to shake the feeling that you should get all right and enjoy this step. Share what you've done in Step 4, and learn from others how your business ideas - and you represent them - can get even better. CHOICES - DO ONE: Give your idea to someone who hasn't seen it yet. This could be one of yours big brother, one of your teachers or a neighbor. Because they haven't heard of your innovations, they'll have a new reaction. OR Gift to an expert. Find someone who has experience with the domain of your idea. Does your idea have anything to do with caring for a sick person? Then share it with the nurse. Does your idea have anything to do with gardening? Then share it with someone who runs the nursery. OR Gather a group of customers. Share your idea with people who would use your idea if it was to be turned into a real business. Read more to EXPLORE: Become an Entrepreneur. If you're inspired by the innovation process and feedback you've received, learn about turning your idea into a real business. Can your new network of experts help you? Good questions for your audience What do you like about this idea? What don't you like? What two ways do you think the idea can be improved? If this enterprise was real, would you invest your money in it? Why or why not? PATENTS Edit When inventors have an idea they want to protect, they apply for a patent. (Ideas are legally called intellectual property.) A patent is a letter from a government agency stating that an inventor is the person who came up with the idea. Once a patent has been granted, no one else can copy the idea or make money from it. To obtain a patent in the United States, the inventor must apply to the U.S. Patent and Trademark Office. There are a number of fees for processing, issuing and servicing a patent - simply filing can cost upwards of \$100. Juliette Lowe, the innovator Edith Juliette Gordon Lowe received two patents in her life! In 1915 she patented a special kind of trash can and liner to go with it. She imagined the container would be lined with waterproof paper so it could hold the liquid without leaking - and it was compact enough to be easily transported. (Great for camping, imaginable!) In 1914, she patented an ornamental icon design. Today we know this as the very first shamrock used to represent Girl Scouting. Exploration. cadette entrepreneur badge requirements pdf
