Do you know? Premium stickers in PixelLab MOD APK (Premium Unlocked) have already been unlocked. Download this app and create your own artwork now! The content table of App Holdings has proven to everyone that the brand and the achievements they have made today, not only through puzzle games such as Escape Titanic, but they can also develop applications. Their first product is PixelLab, an app for editing text and decorating. Currently, PixelLab in Google Play is installed on more than 10 million Android devices. You can download it for free, or choose a modified version on the link we have provided below this article. The incredible collection of PixelLab fonts has more than 100 types of fonts, including Tahoma, Calibri, Times New Roman, Helvetica and Arial. They are in the main section of the font list, so you can bold text when choosing, so you can see different. In addition, the app also has Fancy fonts, Non-Latin, for poster design. And even more unique, hand-designed fonts are also available. As a result, you can create posters or 3D photos has many more options, easily creating work as you like. Add background to your photo Your posters, posters or text on the layout are monotonous. It will become much more outstanding and unique if added with the background! PixelLab has many types of background templates that are suitable for the 3D-style label you just created. They can create shadow effects, add patterns, opacity effects, or just a monochrome background. If all this is not enough for you, you can import your photos from the library and set them as a background for your photo. Images will be automatically reduced and cut off excess parts if they are too large. However, the quality does not decrease at all. PixelLab has a good compression ability to keep the image sharp. You want to create a meme photo, you can add text and background. But if you want to create quotes, then you should search for quotes online and then copy them to the editing app. It's complicated and quite time consuming, but it was solved with PixelLab. This app has integrated hundreds of famous quotes around the world and then groups them into topics such as love, happiness, friends, positive, inspiring, motivational, .. You just need to choose the appropriate theme, the list will appear on the screen. Then, click on one of them, the app is automatically inserted into the main layout. You just need to change the font, the background, that's all! Another special thing you should know, quotes are not just English. The App Holdings development team has spent a lot of effort to learn about French literature, looking for authors who have the best quotes to put it in this app. So you have another option that is a quote French. So far, I've never seen an app that has so much PixelLab. Did you know the quote I don't believe you should be better than everyone else. I believe you must be better than you ever thought you could be Ken Venturi? Or quote if you think you can do it, can you John Burroughs? They are known and motivating people. I have learned more knowledge and I believe that you will be like me. MOD APK version of PixelLab MOD features Premium Unlocked. Works offline. Eliminate unnecessary actions by helping the app run more smoothly. Why should you use PixelLab MOD APK? All the features and paid packages in the app have been unlocked for use. Plus the sticker is one of them. You can explore this collection of valuable stickers with more unique images and hand designs. These photos and posters will become more outstanding.
