If you are looking for a unique way to teach kids about the Bible... and make it fun! This is a good resource to check out. I think this is a great starting point to keep the Bible lessons going in our family EVERY day and not just on Sundays... and if I should happen to come across something that doesn't fit well, it's just that-- a starting point.

We are enjoying this book together, and I look forward to going through more weeks with my son. It isn't the same format every day so it will keep children's attention. I like that the same Bible passage is the focus for a full week. This helps the family have time to talk about a passage, apply it to daily life, and learn more together than just a one time exposure.

- Bethany, Raindrops and Rainbows Review Blog

This is an attractive book, with a hardback cover, colorful pictures and illustrations, and easy-to-read text. I recommend God's Word for Families Vol.1 to all who are wanting to create a meaningful family worship time.

I'm so impressed by how deeply each week of study dives into the topic or passage being covered. Regardless of the particular learning styles of each of your own unique family members, there is something here for them. From fun activities to thought-provoking discussion questions, from passages of Scripture to read and meditate on to main takeaways to carry with you, this family Bible study is sure to not only deepen your understanding of God's Word but your family relationships, as well.

I had so much joy reading this devotional book! God's Word for Families contained what I felt was good doctrine as well as activities that were simple to incorporate into family life. Each week's lesson/activities were well-organized. I loved that a goal of the authors was to utilize lessons organized, eventually, around every learning style (visual, auditory, kinesthetic, reading/writing). I loved many, many things about this wonderful devotional for parents and kiddos.

I love the integration of technology (yes, there are QR Codes in the book!!), and it just looks fun and doable. This looks like something that wouldn't bore me, and it could keep the entire family engaged over the course of a year. With its innovative approach to devotional time, this resource has the power to transform your family’s relationship with God and with each other.

sassybookishmama I think I may have found a family devotional to start doing this year... God's Word for Families is a 365 day devotional with different activities. It's designed with different learning styles in mind which is great since not everyone learns the same! My favorite part is how they break it up for a day to day lesson on the Bible passage for that week!

Weekly Overview:
 🌟 Sunday – Introduction (an age-appropriate version of the week's Bible passage)
 🌟 Monday – "Why?" (activities that show the purpose behind the Bible study)
 🌟 Tuesday – Analytic Learning ("Fun Facts") and "Did You Know?" activities to dig deeper into Scripture)
 🌟 Wednesday – Worship (a featured lyric video and other Apostolic songs)
 🌟 Thursday – Real-life Application (a present-day story to illustrate the Bible lesson)
