

casa toto 2020

casa toto is not a typical property developed for rental purposes, it is our home, a place full of our objects, art and memories, you can now rent it through Alastair Sawday's Special Places to Stay...

The old stone and brick farmhouse is beautifully designed for the simple pleasures of relaxing, reading, talking and preparing and sharing slow food and wine. There is a masterbed ensuite and two double bedrooms.

It is available between April and September.

April and May the price for a week is €1000, June and July the price for a week is €1100, August and September it is €1200.

casa toto is prepared for you by a local team from a nearby village, they will be here to welcome you...

casa toto is not suitable for young children under ten years old.

As it is not a 'made for rental property', we are more flexible with arrival and departure days and we will try to fit around your holiday plans, please send us an email with your dates to enquire about availability,

franandpaul@casatoto.co.uk

Travel options are the direct flights into Ancona or Pescara airports, from Stansted and Gatwick in the UK, Brussels, Dusseldorf or Munich.

Other options we have found work well are flights into Bologna (and staying overnight as we prefer to do) before travelling down the autoroute along the coast, Or flying into Rome or Perugia-Assisi and travelling through the mountains.

We have also found a Lufthansa flight to Ancona from Heathrow, via Munich. Or of course, you maybe travelling by road and stopping at the many beautiful Italian towns enroute (our current favourites are Parma and Merano).
