A guide to unlock Mount Griffin in the Path of Fire. Starting with this collection, you will need to finish the main storyline for Path of Fire. You'll also need a high-powered Vault (Mastery Rank 3) spring mountain. Also be prepared with 250 gold as you need to complete the collection (each card has two vendor items needed for a collection that costs 25g each). Start with Vehtendi Academy's Waypoint in the Vabbi domain, which is in the SE map area and follow the path. Eventually you will see the portal Jackal. If you have Jackal Mastery Rank 3, use it to cut the path to the other side. Otherwise jump down and use a spring high vault to make it into a safe bubble on the other side. From this safe bubble, scale the wall with a spring and make it into a perspective and secure bubble at the top. You have to be in the plateau area now and make your way to the remnants of the last Spearmarshal to start collecting. He will give you a Spearmarshal plea that can be used later to teleport back to his remains.
