Celebrities Celebrity-news Priyanshu-chatterjee-040531 Love stands for the brave As his debut role in Tum Bean , his personal life too was a roller coaster as far as relationships are concerned. But Priyansha Chatterjee, made of stubble, is not someone who will give up. Priyanshu Chatterjee became a hit with Tum Bin , but his married life with Malini Sharma (glory of Raaz) faced setbacks for some reason and they decided to part ways. In an exclusive chat with ShaadiTimes, he comes across as a mature man who has learned the lessons of living well, one who has maintained a strong faith in love and marriage. Priyanshu's successful debut began to blossom after his debut film. He says: I get interesting roles in such films as Tum Bin, Dil Ka Rishta, Pinjar, Movie Star, Julie and Mumkin . It's been a great trip so far as I get very challenging roles with very real characters. It was a painful and enjoyable experience at the same time. It hurts because the characters I played were very hard to accept, and enjoyable, because the satisfaction I received was huge. People started accepting me as an actor. I was lucky because the audience, as well as the filmmakers, showed sympathy for me. Movie Star My Next Release Is a Movie Star. I play the character of a drunken lawyer - someone who indulges in alcohol and completely lost it, who does not want to return to the good life. In real life, I have come across such people in my close contact and I know that is the case because there are some internal problems that they do not want to deal with. This film gives a very powerful message that you can get back to normal life that you can go back to your family. ... You don't have to stay stuck in a rut. Cherish his love Priyanshu is very worried about people who go through trauma in their personal lives. He wants to spread his message through ShaadiTimes. My message to the people who deal with such problems is that if there is such a will, then there is a way. If you want to be with someone you have to wash your way. Once you lose someone, then that person is lost forever. It's better to keep in touch with people who really care about you. Enjoy the responsibility of Love to me means honesty ... it means caring for someone and a relationship implies responsibility. If we are in a relationship with someone we love, then we better be responsible and take care of the person. There is no need to run away from responsibility. It's just a long word, but you can enjoy it as well. You just have to take the lead. Once you take the first step, you will start loving it. The first stampede my first crush was when I was in school. It never materialized in anything, but it was a wonderful feeling that would stay with me forever. The first stampede, as with the first sip in the morning... it's like the first breath of air. Any first has a certain novelty to it and some purity to it. That feeling cannot be taken away. He shares one such feeling. I was a good enough student at school. But the school was such a drag to get up and go. But the only saving grace was the presence of two pretty girls who accidentally called Preeti. I was in love with both of them at the same time. Both of them were very cute and very smart... they were toppers in our class. One of them will be the first, and the other will take the second place. It was magical to watch beautiful girls. Going to school has never been hard work because of them and I was looking forward to school. It lasted three or four years. Double problem Download wallpaper 800 x 600 1024 x 768 I believe that you can be in love with two people at once. We can't be with both at the same time though. It's going to be too much. You have to be a billionaire without doing anything at all, only then you can devote time to two women! Moreover, they also have to be from some other planet, otherwise they will not allow it. It is a matter of commitment and priorities. It's too much to bother to even keep one relationship alive; I don't know how someone can keep two workers fine at once. Page 2 Relationships and ChatterjeeBorn by Shaadi.com sequel from the previous page of Celebrity Celebrity-News Priyanshu-chatterjee-040531 Love promotes brave afterthse as a natural... Sex is part of the package. It's a small part of the big picture. That's the interesting part, though. It is a natural and basic instinct. Compatibility definitely matters. If we are not compatible with our partners, then we really need to fix a few things. The like is a human emotion, and there should be no taboo. So if it exists between two people then that's great, and if not, then it can be working. It's just... nothing like getting the moon out of the sky. Heart-breaking mind-game Priyanshu has its own take on heart-breaks. I had my share of heart breaks. But now I understand that breaking the heart is more of a mental concern than an emotional one. It's more than what breaks in your head. The images and illusions with which you have lived and interpreted as true, when they break, you feel pain. I feel like it's more in the mind than in the heart. What colors mean to me is the Red Color Revolution (2001), a romantic drama. Bollywood Hungam during the review of Tum Bean, wrote about the play Chatterjee Priyanshu has a meaty role, and he performs it with the utmost sincerity. Following the success of Tum Bin, the film's director, Anobhav Sinha, decided to cast Priyansha Chatterjee in his next project, which was Aapko Pehle Bhi Kahin Deha Hai, starring Sakshi Shivanand, Om Puri and Farid Jalal. In the same year he starred in two more films; Dil Ka Rishta, starring Aishwarya Rai and another film Pinjar, which once again starred Sandals Sinha.
