## How much does directv wireless genie cost

The Genius is an all-house HD DVR from DIRECTV. We ranked it as one of the top five DVRs in the industry, as each DIRECTV plan comes with a included genius DVR at no additional cost. If you're thinking about getting a genius, but you're not convinced it's as great as the hype suggests, read on. We will break down every part of this DVR system for home, including details about the hardware of the equipment. Our goal is to give you a clear sense of what's superior and what's standard about genius so you know what you're getting into. The genius can support up to eight rooms with the same unit, thanks to its high-def receiver, which is connected to mini-clients. Please note that although you can include up to eight TVs as part of your system, the genius can only send a signal to four at a time. The genius comes in both the HR44 and HR54 models. The main difference is how they power your satellite dish. The HR44 has an external SWiM power insert while the HR54 is installed. The SWiM insert drives your satellite dish so efficiently that the genius has received ENERGY STAR certification. DIRECTV's DVR lags behind the competition in storage capacity. Both the HR44 and HR54 have only about 1 TB of memory (1,024 GB). This means that you can only record 200 hours of HD programming (800 standard), so you may need to delete old recordings frequently. In comparison, DIRECTV competitor DISH offers the Hopper 3 with 2TB of storage – twice as much as geniuses. But if DIRECTV can launch its Genie 2 model, it can finally give the Hopper 3 a run for its money. See how DISH's Hopper 3 and DIRECTV's genius compare. The Genie 2 HS17, or Genie Server, could be a game changer for DIRECTV. With 2TB of storage, it has the potential to take on the best DVR – the DISH Hopper 3. Unfortunately, customers had trouble connecting the new genius to the DIRECTV app. Without this connection, you can't watch your recordings on the go. But if you still want to experiment with it, The Genie 2 requires a one-time activation fee of 99.00 USD, and the first Genie 2 Mini is included in your service. Let your DIRECTV customer service representative know that you want the model Genie 2 HS17. Depending on availability, they may be able to set you up with this next generation of directv DVR. The DIRECTV Genie remote control is streamlined, with the largest being part of the navigation in the middle. There are a number of helpful features that make your observation experience Turn TV and DVR on and off press R button to automatically capture show press R button twice to skip the entire series replay button back 6 seconds Advance button fast forward 30 seconds This remote control also comes with infrared and high frequency capabilities, which means you don't worry about the line of sight to make it one or change the channel. DIRECTV features both simple and backlit versions of the Genie remote and makes it available, subject to availability. If you need the backlit version and DIRECTV doesn't have it, you can pick up a version over-the-go from Amazon for about .30.00. To configure setup to best suit your home, DIRECTV offers both wired and wireless mini-clients. These dainty units can be discreetly hidden so that the genius can extend the service without huge Eyesore receivers at home. If you connect Genius Minis to secondary TVs, you can wander into the kitchen to cook dinner and resume the episode of diners, drive-ins and dives that made you hungry in the first place. Unlike DIRECTV's DVR, Genie Minis are not included in your service. Each device costs USD 7.00 per month. If you plan to stay at DIRECTV for a while, buy your own genius minis. It will save money in the long run, and you can get both wireless and wired models on Amazon. DIRECTV packages from CHOICE™ come with a season of NFL SUNDAY TICKET at no additional cost. This gives you access to out-of-market NFL games every Sunday. With the Genius, you can create a Mix Channel to watch up to eight live sports programs at once. This is a pretty sweet offer for sports fans – better than trying to fit eight TVs into your living room, for sure. If you love the latest stately, you know that DIRECTV offers selected shows, sports and on-demand movies in 4K Ultra HD. This is the highest visual quality currently available, and you can experience it if you have a 4K-enabled TV and the genius DVR in the HR54 or higher model. DIRECTV is the clear winner when it comes to 4K in the TV provider market because it offers 4K content on Channel 104 throughout the day. DISH and Xfinity are also 4K compatible, but neither has a dedicated 4K channel. The DIRECTV app works well with the genius. You can stream or download DVR recordings in your home to watch on the go, and you can manage all your recordings from your phone. It even works as a remote control, which is ideal to postpone the hunt for a misplaced genius remote for at least a day more. DirectVs does the job at no extra cost. While it can only record five channels at once and up to 200 hours of HD content, it is ideal for 4K Ultra HD and good enough for watching on the go. Rachel has spent the last two years writing CableTV.com writing articles that demystify hidden fees, DVRs, sound systems and more. It makes dish and DIRECTV sellers uncomfortable with their in-depth questions – but if that's what it takes to give you the best TV experience, she's happy to do it. In addition to writing for CableTV.com, Rachel's work was shown on Roku.com, TechGuySmartBuy.com, HowtoWatch.com and SatelliteInternet.com. No matter how you crunch them, the numbers speak for themselves. DIRECTV is available in all 50 states with 99% signal reliability1, making it a reliable entertainment experience. Access to over 80,000 shows and movies with DIRECTV On Demand.2 1 Based on a nationwide study of representative cities.2 Requires a subscription to DIRECTV's world-class PREMIER™ programming package. Other packages have fewer shows and movies. DIRECTV has given customers the opportunity to enjoy the all-day HD DVR experience without the cables and boxes getting in the way, thanks to the Wireless Genie Mini (WGM). DIRECTV introduced the new device nationwide in April 2014 and made it available to customers in all U.S. markets. Current customers with DIRECTV Genie service can upgrade to the wireless device. Together with our technologically advanced DIRECTV genius, which is now able to distribute wirelessly, we are proud to bring the new Wireless Genie Mini to the market, allowing customers to eliminate messy cable wires and boxes in any room, said Romulo Pontual, DIRECTV Executive Vice President and Chief Technology Officer. Customers will love the simplicity of connecting multiple TVs wirelessly with their DIRECTV genius anywhere in the house or even in their backyard. 1Customers can connect up to eight of these devices to TVs anywhere inside – and even outside – their homes without cables.2 It gives them the ability to enjoy their favorite home programming without having to attach a DVR to any TV.3 Because the WGM is small enough to hide behind a TV, customers don't need a bulky TV cabinet or entertainment center in every room. Using one or more of these innovative devices offers the benefits of all-house HD DVR comfort without the limitations of wires. It offers an even easier way for DIRECTV customers: watch, record, pause and rewind programs in each room Watch live or recorded programs in four rooms at once Start watching a movie in one room and finish watching in another watch new movies and shows recommended by Genie based on the programming you already enjoy4 set parental controls for individual TVs Does Genie Mini Wireless Work Work? The DIRECTV Wireless Genie uses radio signals similar to mobile phone transmission, except that the signals transmit digital TV data instead of voice data. The WGM is Wireless Video Bridge, which creates a private local network to transmit digital information without cables throughout the home. The Genie and Wireless Video Bridge require a professional installation, but installing additional wireless minis is easy enough to do it yourself. Call Now, to learn more about WGMAmerica's #1 satellite TV service, continues to offer customers new opportunities to enjoy television on their terms. With just one call, you can experience the ease and convenience of this innovative new device. If you feel tied up by wires and boxes, use the directV Genie Mini.1%%%%legal\_genieoutside%%2%%%legal\_genie8tvs%%%%3%%%legal\_geniewholehome%%4%%%legal\_genierecommends%%Mini.1%%%%legal\_genieoutside%%2%%%legal\_genie8tvs%%3%%%legal\_geniewholehome%%4%%%legal\_genierecommends%%
