**ENNJOI LIFE
REWARD YOURSELF**

BRAND STORY

Our brand image is a cute blue whale named Timmy. Normally, the blue whale's sound frequency is 1039 Hertz. However, Timmy can only produce sound with 52 Hertz, which makes its sound frequency unique. Because of its unique sound, Timmy was hard to be noticed and always exploring the blue world alone. It's niche, and even so, that doesn't stop Timmy from exploring this unknown world and enjoy the beauty of it.

We believe that not everyone's sound is easy to be noticed in reality. Not everyone's sound is the same.

In our daily life, there will be a variety of minority groups with different sounds like Timmy. They live on separated planets and explore their own happiness. Like a star in the dark, their individual glimmers can also light up the dark.

Ennjoy is a company to find the same frequency in the niche and innovate in the mass products. We emphasize "exploration and freedom." Our brand hopes to inspire people's spirit of adventure and independence through the micro-innovation of our product.

Our blue world need some different sounds. We encourage everyone to pursue their dreams and explore the unknown world. We listen to every sound. Each sound, like each star, represents the light of freedom. When they come together, they light up the dark sky and our hearts. The minority eventually become the mainstream.
