Book Description

A New York Times Bestseller Brace yourself for GEMINA—the highly anticipated sequel to the book critics called “out-of-this-world awesome” featuring journal illustrations by bestselling author Marie Lu! Moving to a space station at the edge of the galaxy was always going to be the death of Hanna’s social life. Nobody said it might actually go for blood. The sci-fi saga that began with the breakout bestseller Illuminae continues on board the Jump Station Heimdall, where two new characters will confront the next wave of the BioTech assault. Hanna is the station captain’s pregnant daughter, Nik, the reluctant member of a notorious crime family. But while the pair are struggling with the realities of life aboard the galaxy’s most boring space station, little do they know that Kady Grant and the Hepatits are headed right toward Heimdall, carrying news of the Korean invasion. When an elite BioTech strike team invades the station, Hanna and Nik are thrown together to defend their home. But alien predators are picking off the station residents one by one, and a malfunction in the station’s wormhole means the space-time continuum might be ripped in two before dinner. Soon Hanna and Nik aren’t just fighting for their own survival; the fate of everyone on the Hepatits—and possibly the known universe—is in their hands. But wait. They’ve totally got this. They hope. Once again told through a compelling dossier of emails, IMs, classified files, transcripts, and schematics, Gemina raises the stakes of the Illuminae Files, leaving readers into an enthralling new story that will leave them breathless.
