Angkor is one of the most important archaeological sites in South-East Asia. Stretching over some 400 km², including forested area, Angkor Archaeological Park contains the magnificent remains of the different capitals of the Khmer Empire, from the 9th to the 15th century. They include the famous Temple of Angkor Wat and, at Angkor Thom, the Bayon Temple with its countless sculptural decorations. UNESCO has set up a wide-ranging program to safeguard this symbolic site and its surroundings.

PROGRAM

Located in the leafy French Quarter of Siem Reap between the Royal Gardens and the Old Market area, Shinta Mani Angkor and Bensley Collection Pool Villas are just footsteps from the river and 15 minutes from the magnificent UNESCO World Heritage Temples of Angkor Wat.
