This template uses high-quality icons and And the best part of all the icons are included in the download folder so that can easily work with this template. Trendy web elements make this one-page website template interactive for use. Although this is the default website's one-page template, it has all the elements and options needed to build a proper website. If you have a resource, you can turn this template into a full multi-page template. The info/download Demo Scenic What makes this template unique from other free website portfolio templates is its video background section. The video will not only add life to the website, but also help the user easily understand the message. Since this template uses blurry background video, it's best to save the video for design purposes. This is one multi-page website template, and all pages have a video background title section. Info / Download Demo Mighty If you are looking for free portfolio website templates for an agency or business website, this template would be a good choice. With a neat minimum design and plenty of white space, this template gives a distraction-free environment to users. The portfolio page is designed wisely to clearly show the images of the project in a full-page view. You will also get the opportunity to slideshow and sketch views in this design gallery. Whether you're a design agency or a photography studio, this portfolio gallery design will help you showcase your design elegantly to users. Just like the design, the code structure is also kept neat and simple to facilitate customization. In this way, developers can easily work with this template. Info/ Download The Whitespace Whitespace Demo is the corporate style design template Evans mentioned above. If you like the Evans template but expect more interactive elements, the Whitespace template will impress you. Throughout the template, the creator retained the business look of the website. By default, the casual bold design of this template makes it an ideal option for startups and new brands. Sections of the background video are also given in this template to allow you to show your work culture. If you're looking for free website portfolio templates with full design, this is the template for you. Info / Download Demo Porto From the very name you can understand that this template is designed exclusively for the portfolio. If you're looking for free website portfolio templates that put your work at the center of design, this template will impress you. If you're a photographer or artist, this template will help you showcase your images throughout the template. The portfolio page is designed intelligently so you can showcase all types of images, videos and other multimedia content. Using free website portfolio templates, which are made with HTML5 frameworks, will help you run a raw HTML website that can handle audio and video content easily. If plan to run a raw HTML site for your website portfolio, you can use the Porto Porto Porto template Such. Info/Download Demo Accent Accent is a creative one-page template of the site's portfolio. The creator used the white space and the effects of scrolling smartly to deliver an immersive experience. It will be a slight disappointment for some users that this is a one-page template, most users will love to see it as a complete website template with multiple pages. But still, we can work manually to add the features and pages that we want. Although it's a free template, the creator has given us a premium-quality pixel-perfect design; for this very very purpose we have to give the thumbs to the creator. The portfolio section is designed from a business perspective, you can show the team members involved in this project and a user overview of the project. The design of this default template makes it an ideal option for business sites. If you're looking for free website portfolio templates with interactive design, this template will be a good time to start. Info/Download Demo Breed2 Breed2 is a pure promising business class template site for freelancers and professional designers. On this clean website template, you can elegantly showcase your work. If you're a graphic designer, your colorful design will look bright on this pristine website template. While you have a separate portfolio page in this template, the designer gave the portfolio section on the homepage. So you can impress the user as soon as they land on your site. This pattern uses the colors of gradients extensively, and gradients can be seen in texts, call buttons to action, and background elements. With this template, you can easily promote your services and increase your chances of signing new projects. The Info/Download Demo by Alima Alima is the perfect portfolio template for the website for photographers. The designer used the homepage header section to effectively promote his services and emphasize his skills. The only thing you get on the homepage is a small section of the gallery. Filter options are displayed above the gallery section to help the user easily select the category they like. Don't be disappointed in the simple design of the homepage, the creator has given you all the main pages pre-designed for you. If you want to add a few more sections to the homepage, you can easily customize it by editing the code. The developer of this template used HTML5, CSS3 and Bootstrap 4 framework. Since all frameworks are the latest and the biggest work with this template will be easy work. The Info/Download Demo Square is a clean and rich looking website template for architects. One of the biggest advantages of this template is the one-page template. If you're looking The website template to showcase your work, this one is for you. Just add content to the template and take care of your business. This template requires less maintenance and only a few hours of your time to create a website. Plenty of room for images is given in this template, so you can demonstrate your work without any worries. The Info/Download Demo Mosaic is also designed for architects, but this one is a fully featured template. The creator has given you all the elements and options to customize the proper business. As your business grows, you can change this pattern as your business site. The designer has made this template very minimal, so that the elements and content on the web pages can be seen clearly. In this artistic template, the designer elegantly manages the text and content of the image. The generous space is given in the portfolio page, so you can gently add as many images as you want. The Info/Download Demo Shutter Shutter is another template portfolio website for photographers. This template puts your work at the center of design. The first user will see your beautiful collection of photos on the website. On a pure dark background, your colorful photos will look bright and lively. All navigation options are added to the left sidebar to facilitate access without disrupting the content on the main web page. The Info/Download Demo by Kenedy Kenedy is the perfect portfolio template for freelancers. If you plan to take your business to the next level, this template is worth a try. The designer of this template designed this to give equal value to personal branding and your portfolio. Once a user gets to your site, the first thing they see is your image and a brief introduction from you. The Hire me button is placed to let the user know that you are open to new projects. Just below the title section, you have a widget to list rewards, accomplishments, and websites you've featured in. The long homepage gives you a complete overview of your services, portfolio and achievements. The grid style portfolio is used in this template with filter options at the top. Because it's a multi-page template, you can even use a separate page to clearly explain the project to users. The visual effects and effects of the animation are subtle but elegant, which will impress users confident in the fire. The Info/Download Demo Pixel Pixel is the perfect website template for branding agencies and freelance designers. The images are at the heart of this design pattern, so you can showcase your design images throughout the pattern. In today's layout, this template clearly explains what you do and how you do it. The designer of this template took full advantage of the design with large sections and large web elements. In the top lane, you have a place to list all the social media profile links along with navigating the page. Other substreams, such as services, portfolios and contacts, are also pre-designed for This template has all the possibilities to create a proper business website. Since this template uses the latest HTML5, CSS3 and Bootstrap frameworks you can integrate this template with any modern applications and tools. Another useful feature with this template is it has a mega menu option. You can clearly list all your services and options under one menu using this version of the mega menu. Info/Download Demo Steve Steve Template website can be used for personal websites. This template has plenty of room to improve your personal branding. Throughout the template, you have room to add an image so that a new user can feel like a real person for the job and also boosts confidence. Maintaining an active social media account is always best to increase your credibility. In the footer section, you can add all your active profile links on social networks. The bright yellow color scheme attracts the attention of users as soon as they land on your site. Flat reds are used as secondary colors that also look attractive on a yellow colored background. On the very main page, you have a portfolio section to show a sneak peek of your work. This template has a separate portfolio page to list all your work in one place. Separate project pages are also given to allow you to clearly explain the project. Info/Download Demo Connect Connect is a perfectly designed template portfolio website for freelancers and graphic designers. With a full split-screen width, the design of this template gives you enough space to describe the project with its image. The clean layout of this template gives the same preference to both images and texts. In minimal design, your colorful graphic work will look bright and visually appealing. Another big plus of this template is the visuals, interactive animation effects according to your mouse movement is a fun element and it's also very interesting. Because this template follows creative design, you can't add your data to the homepage itself. Fortunately, Connect is a multi-page template, so you can elegantly explain your services across pages. Info / Download the Meetme Meetme demo is a first-person website template. Yes, once users land on your site you give an intro to yourself and share all your experiences in a neatly organized way. The cleverly designed homepage of this template gives you a brief overview of your experiences, careers and your projects. In the title you have a large V-card that shows your name, a few lines about you and your contact details. Animated skill panels are also given in this template to help you show your experience in Mode. A chronology of style design follows in the experience section to clearly show your career path. Each section gives enough space for texts to give a brief idea. It's a multi-page template, so you have a portfolio section on the homepage and separate page for him. In the portfolio section, category options are given from above to help visitors easily filter out the category they are interested in. The color scheme of the gradient of this pattern gives the template a fashionable colorful look. The Information/ Download Demo Tough Tough Portfolio web template is designed exclusively for architects and civil engineers. What makes this template an ideal option for building websites as well. Since this template is designed for architects you get a lot of creative design elements in this template. The creator of this template was able to link functionality in the creative design of the template. In the title you have a large image slider to list the recommended content. The slider image follows a portrait orientation so that some of your images can be cropped. The masonry style grid follows in this pattern with enough space between each image holder. On the homepage you have a portfolio section in which you can add some of your best projects. You can list all your projects on a separate portfolio page. The default design only displays images if you want to use a separate page to briefly explain the project to users. To give you more screen real estate all the navigation menu options hidden behind the burger menu icon. Info / Download the Alias Alias Demo is a professional website template. If you are a freelancer and want your game, this template is the best option. This template has both personal brand-enhancing elements and promotional elements to improve your business. In the title you have a great image of the hero with bold texts and call buttons to action. Animated skill bars are given in the skills section to show your experience to users. The review section is also given in this template to improve the credibility of your work. Individual line icons are used in this template to gently explain your services to users. On the homepage, you have more than enough room for text content. You can use the text space not only to explain your services, but also to spread SEO keywords throughout the template. This is a one-page template, so it will be easy for you to maintain. The Info/Download Demo Beckham Beckham is a unique free website portfolio template on this list. This template is designed for people who love a dark theme. In the dark layout theme, the designer of this template has created a minimal template. Each section of the home page is treated as a slide, so that the user will have all the related content in one place. This template not only allows you to list the project, but also explains the project and your role in it. Web elements, on a clean black theme blue color elements of the cobwebs look attractive. Animated counters are also given a neat show of some impressive stats to your project projects Experience. It's a multi-page template, so you have more than enough page and space to explain your services to users in detail. The burger menu opens into the full window of the page in which you have room to add an image. The other subpage pages that you get with this template are designed to be about, portfolio, services and contact. In the footer section, you only have a place to add your social media profile links. The Info/Download Demo Strategy Strategy is a typical website portfolio template that you would normally expect in a portfolio website. This minimal website design template gives full emphasis on the content and your work. The clean design of this template gives a distraction to the free environment for users. The visual effects are made soft and thin to match the minimum pattern design. The creator of this template used a full-width layout with large image holders and web elements. You don't have a separate page for the portfolio, the homepage itself is treated as a portfolio page. Throughout the page, just above the footer, you have a great section to start a draft banner that deftly changes colors and texts when users hover over it. The animation effects in this template can be simple, but they can easily get users' attention. Info / Download demo Black Black dark themed personal website template. As a personal website template, you get space and web items to promote your services, as well as to display your best work. The dark theme of the template gives a rich feel as well as a clear differentiation of each element on the screen. At the top of the bar, you have navigation options and social media profile links. In the title section, you have an image of a slider, the effects of the transition are soft and smooth. With a large leg section, you have enough room to add other important links and newsletter subscription form. The light green color scheme used for web elements looks attractive on a dark black background. Info/ Download Demo Pixels Pixels is a dual-destination website template. The flexible design of this template makes it ideal for agencies and personal websites. To use full-screen design, this template uses large blocks of content in the split layout of the screen. In split-screen design you have the opportunity to add your best work and services that you offer. With this template, you'll get others under pages like about, portfolio, and contact pages pre-designed for you. The portfolio page is almost the same layout as the homepage, where you can add images and texts side by side. Info/Download Demo Bold Bold is a bold simple website template. With pristine clean and bold texts, this template conveys messages clearly to visitors. For those who love minimal design, this template will definitely impress you. Creating a minimum template is the most thing, even minor details need to be considered. With the bold pattern, designers and developers have done a great job. The effects of parallax between sections give a vivid sense of this pattern. The portfolio page is designed as a grid with large image holders. An equal amount of space is given between each cell to avoid the crowded feel with the large images. The induced effects are used to show the project title and other details. Info/Download Demo Riddle Riddle is a fresh new entry in the free portfolio of website templates collections. This template ticks all the boxes of creative modern website design. With bold texts and a balanced color scheme, this template saves visitors as soon as they land on your site. On the homepage, you only have the opportunity to showcase your work and space is provided to give a welcome message to visitors. Just above the portfolio section, you are given category tags to help visitors filter and see your work. This pattern does not follow the usual grid design. Instead, different forms are used for cells. With this design, you will get the freedom to add images of any orientation easily. In the top lane, you have the option to add a call button to the action to take visitors to the contact page. Take a look at our collection of contact form templates for more creative form ideas. The whole template is a riddle for freelancers who want to get more projects through their websites. Info / Download Demo Borders Boring same old design portfolio-style grid? Expecting something new that will not only help you showcase your work, but also promote your business. Well, Frontiers is the template that you expect. With agency style, this template gives you creative web design and web elements to share your experiences, work and promote your services. With a split screen design, you have plenty of room to enhance your personal brand. In the demo you get random images used on different pages, you can customize it with your own attractive images. Since this split screen design gives you plenty of space, you can even add high-quality images. On the right, you have room to add texts and relevant content. Again being a creative template, like the Connect template mentioned above, this template also provides you with a pre-made few pages. The Info/Download Demo Po-Portfolio Po-Portfolio is a proper portfolio template. Although this template is a free template, it provides you with premium design and functionality. This portfolio template is best suited for studios, creative and graphic designers. For people who like to impress visitors with their mind-blowing works, this template will be the best choice. Like most other free website portfolio templates, this template also allows you to add only portfolios to the homepage. To give users a distraction free is the full width of this template template experience A hamburger-style menu. Menu options are displayed on the left with soft animation effects, you also have the option to add social media profile links at the bottom of the bar menu. Aside from the homepage, you get others under pages like about, portfolio, blog and contact pages. The entire inure works on the same pure design to maintain the consistency of the design throughout the template. Info/Download Demo Work is a universal creative website template for design agencies and portfolios. If you are in search of a modern website template that elegantly demonstrates your work and also gives you many elements to promote your business. For freelancers who are in the thought of taking their business to the next level will find this template helpful. With a simple clean design, this template gives users a distraction of the free experience. To avoid the boredom of users on one white background, this template uses different shades of white. The orange color scheme for web elements looks attractive on a pure white background. The static left sidebar provides better brand visibility and navigation. Since the logo in the sidebar is static on all pages, it improves your brand awareness among visitors. At the bottom of the sidebar, you have the option to add a social media profile link. The portfolio page follows a symmetrical grid with only two columns. The induced effects are used to display the number of views, imes, and exchange options. The Info/Download Demo FPlus FPlus is one of the best free website templates we've mentioned in many of our collection. The working creative design of this template makes it unique, and make sure it finds its place in the collection whenever possible. The sleek animation effect combined with the pristine sheer design fascinates users once they land on the site. Although this template uses some creative web projects such as cutouts, extensive care in overall pattern design makes creative design elements blend well with the overall design of this template. This one-page template uses a full stretched large portfolio segment to elegantly add your designs. Individual pages are also pre-designed using this template to help you explain projects in detail to the user. One project page uses the same creative design, so you get consistency of design throughout your site. The Info/Download Demo Rea Rea is a minimal website portfolio template, in fact, it's more than just a website portfolio template. This template uses a lot of modern web elements and visual effects to make it look stylish and interactive. Influencers you have The audience base will certainly find this template useful, especially graphic designers. Just like Dribbble's this template gives you the ability to show the number of views, likes, and downloads. Drawing a line just above the footer adds touch the minimal design of this template. In the title, you have an input effect to give an interactive introduction about you or your brand. This template is perfectly brand focused, even for the forklift logo used, and in many places you can find the brand logo has been highlighted. This will help you make a strong impression on the visitors. Aside from the homepage, you have other pages like about, contact, function and search. This state-of-the-art HTML template also provides you with several options for adding multimedia content such as images, video and audio. The Info/Download Demo Re-Opening is a typical portfolio template for a website you are familiar with. Developers will find this template extremely useful to make their custom designs. This well-written code template will be a good base and will help developers start the project from scratch and finish it faster than they thought. The Reopen template uses HTML5, CSS3 and the Bootstrap structure. This template can also be used for design agencies, but you need to make your homepage customized for a business page. Take a look at our business website template collection to better fit this minimal website template. Because this template allows you to add only a portfolio on the homepage, you get basic subs that are pre-designed for you. Info/Download Demo Sun Sun is one of the best free portfolio website templates out there on the web right now. The creative design of this template will help you showcase your designs elegantly, as well as explain them interactively to visitors. The thick grey boundary used in this pattern gives this box width pattern a unique look. Since this is a minimal website template, you won't get tons of web items as you usually get in many website templates. So the designer gave you enough space to add textual content. Because this template relies more on textual content, the fonts used are bold and legible, making reading great on this template. The Info/Download Demo Portfolio Portfolio is a professional website template in a modern website layout. With full design width, this template gives you enough room to add web elements and blocks of content. The clean white background adds more richness to colorful web elements and simple line vectors. If you are in search of a one-page template to allow users to experience all your work in one place, then the portfolio is the best website template for you. A logically organized segment will help you share your experiences and services in an appropriate manner. Since it's The footer template gives you the option to add a newsletter registration widget and social media profile links. The Info/Download Demo Blanca Blanca is a personal website template for people who want to keep their website active. Being Being website template, Blanca attaches special importance to content and personal branding. This template gives you a separate page for the portfolio. Writers and bloggers will find this template useful to share their work as well as run your own blog. The Blanca template uses HTML5, CSS3 and Bootstrap frames. Because this template uses a universal standard, it will be very easy for developers to work and customize this template. Out of the box, this template is mobile to respond, speed optimized and made cross-browser compatible. Info/Download Demo CV Portfolio CV Portfolio is a hybrid version of the online resume template and pattern portfolio. For professionals who are closely associated with the development and online industry will find this template useful. Since this template gives you space for your resume and portfolio, it gives you an edge over other competitors when you apply for a job. In the title you have enough space reserved for you to give an impressive intro and contact details. The call button to action is provided to help recruiters download your resume. The portfolio is designed in a modern grid layout, so that it can handle both landscape and portrait orientation effectively. Other useful items that you get with this template are animated counters, a perfectly balanced color scheme, and a responsive layout. Info/ Download Demo Sonar Sonar is the most creative free template portfolio website on this list. With a creative parallel line design, this template really celebrates its uniqueness among the many free website portfolio templates. This creative website template can be used by creative professionals, photographers and artists. The title has a slider with a portrait orientation. The effects of the inducting are used to show the details of the projects. To make creative projects even more appealing texts are used elegantly. The full width of the template design is used creatively with shapes and lines. Since this creative website template designer doesn't want you stuck on the homepage yourself, you'll also get other subs, pre-designed for you with the same design sequence. In general, Sonar is a creative and useful website template with all the features you need. Info/Download Demo Suitcase Suitcase is also a digital template of the agency's website style. Just like the Sonar template, this one also uses creative web elements to make the template unique. Creative design is combined with visual effects to make it even more appealing and interactive for the user. Since all the web items are located in the right place, you won't have any customization issues. Even if you want to customize the template it can handle it well. This one uses the latest HTML5, CSS3 and Bootstrap frameworks. It's a multi-page template, so you get other pages like portfolio, services, deal and the pages pre-designed for you.
