Did you think you couldn't get any more excited about the Marvel Black Panther? What if we told you Kendrick Lamar produced the soundtrack? And that her first song is a new song from him and SZA? And what can you hear here right now? That's what we thought. According to the press release, Lamar is working with Anthony Top Dawg Tiffith to curate and produce Black Panther: The Album, in close collaboration with Black Panther director Ryan Coogler. The Black Panther at Marvel Studios is amazing, from its cast to its director. The magnitude of this film shows a great marriage of art and culture, Lamar said in the statement. I am truly honored to contribute my knowledge of producing sound and writing music along with the vision of Ryan and Marvel. The press release also notes that Black Panther will be the first release of Marvel Cinematic Universe to present multiple original songs created just for the film, so today's All The Stars is just the beginning of it. The Lamar DNA song was previously used for the soundtrack of a Black Panther sizzling reel shown in Comic-Con. At that moment, the cast and the team sprang up about perfection with Lamar's music. It's actually strangely literal for the purposes of our trailer, Coogler said during the Comic-Con panel. I think a lot of the cultural things we're dealing with in Wakanda are in the zeitgeist of the African-American community. However, it was only in December that we have a lamar hint that would be directly involved with the film. Love's music video included a quick take on a clapperboard that read B. Panther Soundtrack Coming Soon. Lamar and Black Panther sound like a match made in the sky of pop culture. And if that first song is an indication, we're going to play this album in replay for the rest of the year. Black Panther arrives in theaters on February 16. There's only 42 days left! 08/25/2008 YUMMM! This is a guardian! Great summer drink... kind of a twist of my two favorite drinks... Sunrise Tequila and Amaretto Sour. I did it on the rocks just because I was too lazy to get the blender out and it was great. 01/25/2010 Very good! I used Amaretto I'd made using the recipe I found here. 05/11/2011 Very good. You really can't try alcohol. 07/16/2011 This is such a relaxing drink that I added a tablespoon of vanilla ice cream. Very tasty!! 11/18/2009 Okay! I only had about 2 ounces of pineapple juice, but okay, it just meant the drink was stronger! I served it on the rocks instead of mixing it. 05/28/2009 Very nice! Next time I'd like half the juice. 02/22/2010 These were good. Prob. would add more vodka to make it a little stronger. It would be great in the summer a terrace in the sun. 09/21/2009 Delicious! I multiplied the recipe by 8 and made a jug - the separate ingrediants, but all they needed was a bit of a stir. The whole pitcher disappeared in a matter of minutes. Everybody loved it. Loved. I made this exact recipe only using Smirnoff Vodka whipped just because that's what I had on hand. I didn't mind decorating my drink just because..... let's not do it. I was surprised at how much I liked him. I don't usually be a fan of amaretto but I liked it combined with the ingredients of this drink. I'm about to get ready for a second. Sheilawc pomplemousse Dianne Ejemplifying what it means to use art as activism, Beyoncé surprised fans with a new song, Black Parade, at the Juneteenth weekend celebration. What's more: He left the track in conjunction with the launch of his initiative to support Black-owned small businesses. I hope that we will continue to share joy and celebrate each other, even in the midst of the fight, subtitled an Instagram post on June 19. Please continue to remember our beauty, strength and power. The 24-time Grammy winner explained on her website that Black Parade benefits BeyGOOD's Black Business Impact Fund, administered by the National Urban League. Being Black is your activism, he added, before sharing a black-owned business directory, which was created and curated by Black Owned Everything founder Zerina Akers. Black excellence is a form of protest. Black joy is your right. The letters of Black Parade include lines such as: Judge, run through the house to my art, all blacks / ancestors on the wall, let the ghosts chit-chat, and We have rhythm, we have pride / We are born kings, we are born tribes / Holy River, holy tongue / Speak glory, feel love. Juneteenth's anthem, which marks the emancipation of slaves in the United States, is Beyoncé's first new solo music since he released The Lion King's 2019 soundtrack, The Gift. Singer Brown Skin Girl also surprised fans in April with a remix of Megan's Savage Thee Stallion in support of Bread of Life Houston, an organization that helps with COVID-19 relief in women's hometown. Beyoncé has also used her voice more recently to talk about police brutality, specifically the deaths of George Floyd in Minnesota and Breonna Taylor in Kentucky. Before charges were filed against the four former Minneapolis police officers involved in Floyd's murder on May 25, Beyoncé urged his followers to sign several petitions to bring the men to justice in an Instagram video on May 29. Then, on June 14, the singer published a letter to Kentucky Attorney General Daniel Cameron calling for swift and decisive action against the three police officers involved in Taylor's death on March 13. Louisville Mayor Greg Fischer announced on June 19 that the city was starting termination against one of the officers, but no charges have been filed. Don't let this case fall into the pattern of non-action after a terrible tragedy, Beyoncé wrote in his letter to Kentucky AG. With each death of a black person at the hands of the police, there are two real death itself, and the inaction and delays that follow it. This is your chance to put an end to that pattern. With its touches of sexual transgression, Appignanesi's concentrated drama seeks to explore human impulses that escape the limits belief systems, but, despite intense interpretations and DV claustrophobia, it is simply too elliptical to communicate its meaning effectively. Published: Friday, October 21, 2005 Go to The Footer Content Why someone would follow Peter Sellers' Clouseau cult is a mystery, though if anyone were going to try, it was Steve Martin. In this contemporary comedy based freely on the original film, Inspector Clouseau is assigned to investigate the theft of the Pink Panther diamond and the murder of a football coach (Jason Statham, killed early). Parisian racing leads to innocent getaways abroad in New York with the singing suspect Xania (Beyoncé Knowles), in which Martin fuses his own personality with an imitation of Sellers with only a certain success. Some of Clouseau's characteristic mistakes can amuse those unfamiliar with the originals, but in a modern film with a contemporary actor, national stereotypes and farc farce humor seem old-fashioned. The plot, needless to say, is insignificant. Published: Monday, March 13, 2006 2006
