King Cruz Reyes ordered the ephetri in his Tumblr account to see you in my booth after lunch. Mrs. Moral Character pretends to be me after class. Mrs. Character is our social science teacher. He is also our advisor. I was like a gag to think about what he would tell me. I lost lunch. I'm pretty sure it's going to be serious. She just recently pulled out her calculator to show how sled and how right she joined my 5. It wasn't justified as I can't imagine if I'm a brothel you'll be giving a quiz. If you are lazy to read correctly, then consumers. I even said I wanted to say red ball. But his mood was to be hired in class for the first time. In fact, we're talking about his favorite topic. His dazzling Malaysian and his favorite. He was also gossiping (as usual). Mr. Espejo was king, so an elderly young man, because he twice was a young woman. Ms. Couwan says she's not at school because they're studying vacations: interrupted in America. Bell already calls when he remembers our collection, the process of normalization in government. He said: For us to be fully democratic you need a high level of literacy. (Rizal said that.) The government has enough communication systems, and the people have high morals. And above all, our standards must be westernized. In this way, we will not be uncivilized by Western standards. When he asked me, I said that there was a simpler approach to looking at the problem. For example, why not start with the economic conditions of the country. If people are happy, the government is fine. But if there are many dissatisfied, the system is naturally abnormal. Not only an effective communication process, not just a high level of literacy. These are just manifestations of real problems. He was in shock. That's where the bell crashed. Oh, consumers of life, I want a fever. So far yesterday is now. When I'm home, I bet. When I am my man to tell a story, I am a famous person. But here at school, there's no scholarship to the city. I really wanted to stop, but Dad didn't want to. Who else could enjoy the dropout? I was very happy that I was going to get an education. I would have thought I wasn't tied to my teacher's shoes with me every step of the way. Turn to where the corner wants to take, comfort, even if you want to go, walk, even if you want to relax. And imagine even though I was injured. Oh, students of life. Just a storm, even cook own language. Contrary to them, synchronization. You nod the edge to storage, that is when you ever have to be deceived. I just don't want to. Consumption of compromise, tango and yes, oh, it's just a matter of time, dozens or braids. Why the diploma is still in the world. If I didn't have a degree, who would believe me. I hope the score is not fixed, I would not be ashamed to enter even Metro Manila assistant. If I finish school, ask for experience in my application, too. And if it was finished, we would be e-like in the job, which was hard for me to be patient. Is it just a problem? Storm if it's a storm. As a bank, then the conversation, why should you proclax? Smash if it falls. Hit if you kick it out. But I didn't have to fall. Okay, my head was too stiff, strong and pretty vulnerable, but why should the body be involved and ordered into the conversation? It's not a military school, too, why do you think your behavior and appearance were their intimate bullying? What happened when he fell? If Recto, bar flunker, but one of today's recognized constitutionalists. Einstein, who collapsed in physics and gymnasium, but great time scientists. Although he did not know his theory of relativity. In purpose, I'm not Recteau and Einstein. I'm just Jojo, if I didn't say anything, I'd be asked. Our neighbors, she said, are you joking in our province that I was the only one who came to Mania to study for free. If only they knew. Lessons. Lesson in the morning, at noon and lesson at night again. I didn't know what was going on. We're not done researching anymore. No one knows if this is not what is our lesson to date? It was like the gods that they were the only ones who had a monopoly on the right. So it can't be suggested and especially not being able to blame the error. Teachers in the world, why did this happen? As Mrs. Moral's character, before the collection begins, first serve first that virtue of honesty, cheese bad deception, sinful mortality to teach the school forgot the answer because of the maze, crime code and so on. Everything that is evil and forbidden in the world is known. But his secret was our discovery. He said last year's referendum on death suddenly went blind and blind. When he said it was under pressure, only three letters were read out. It's an excuse for what's going on, even if you're beaten, still win. Why, can you do that? And now he is not Mrs. Moral's character to us, Mrs. Laser. Then we wonder if we have pointed to peace. Who can be a hero? Oh, my English teacher, no. In the world. He just could use it in his voice and diction, he was happy in life. We were just playing our paper, listening to it out of the way. It's like we were going to continue his therapy. And his favorite subject, his nun, Pure Spicer said he built a church in his country. Antiques 'yempre is a church (like he and his grandfather). She just wanted to get out, she had a bloody blue. It would be nice to discover that the castle was here in the past were butterflies and criminals in Spain. They are not as problematic as their government, not the Philippines, to withstand concussion. That's how he initiated his grandfather to be patient. When you opened not to learn, go. He says to you: What? Is that all you don't know until now? Okay, this is your assignment for tomorrow. He'd be erranding falsely on the board. Contact you every day if you are still gagged. You can't lose anymore, you still can't entertain. If the enduring consumption of cigarettes and beer is a choice of headache, then: I say that vice is bad for learning, they will immediately justify. If you are going to talk about it, alcohol and nicotine are harmful to the human body. It's also like saying: You're the teacher you can. Because you're still a student, to endure. Ask Mr. Discipline and know the answer. Don't ask if he's also going through childhood, if in the past he's also been bleeding, because of his answer: That's why I don't want you to learn the vice because I've been through it. For us in peers, we only had two farewell school farewells. I'm discharged with spectagoation. Ms. Also in the fountain she said. As they made sure we were to be expelled from our beloved school, Ms. Moral (Eraser), Ms. Gles-ing, Mr. Mathematician, Miss Spermatozoa and Mr. Discipline, said in a statement. It's not a quorum, say, i.e. It's true that Jojo Boy doesn't have a sense of quo-rum. I thought he was brilliant, just my caveat was that... Only he's stubborn. That's when I drank in my class, it's like annoying to come to you. You will smell your breath. As true as true, I swear to God that it is true. Not only did I sometimes like to hit in class that you thought she might catch me in my lesson. I didn't do any research work, he wasn't going to create it. And he's always gone. Sometimes I don't want to give an excuse to slip anymore. So what is the group's verdict? Me too. I'm going to punish his hostility. I will be matter to him immediately. The wicked are their accusations against Mr. Trump. She said it was crazy. They were so happy to gossip about it. That's if they don't go through what Mrs. Trump says. When they had a bit of co-teacher they hit the hi-hello was their answer. When Mrs. Bulls eyes: My God, it's crazy, he doesn't know what he's saying, they reasoned. Ms. Kasich is a cultural minority. I also gag them for a man who was here in Manhattan to study. They went up the mountain, then forced it at the same time with the standard of an exclusive school, it is believed that learn to take the poverty of their tribe, then now just think about it. Stupid, they said. Given time. The representative, he said, should have lost his inferiority complex. Oh, when people learned to talk, they were shocked to hear the truth. The Kings team said it was the point broke. I've been finding it kinda weird lately. So what we do with it. Finally I can't get past him. Of course. We're setting a bad precedent. Stupid thing is smooth at school. Remember, the Philippine School of Science and Technology. Then let's get a so-called student? You can't. But it is a cultural minority. And what? I'm sorry, there's only one standard perfection, and there are no exceptions yet. What now? They then crucified Overthrow. Where Ms. McLaHer's case was heard at the school, they made about the end of the story. That's it. Have you ever considered his case lately? Do we have a policy in this case? If it could have been a lot emma. Oh, how much I hate violence. You can even burn it. The fire is still in The Maneuver today. E, if we limit ourselves to the psychic? and who's going to take over the bill? Ms. McGregor's case was completed before the discussion began. They don't come as fast as they judge. They are sometimes humane to them. Like Axis and Armando, our schools are also our schools. Let's banish Hosea. But it's low in physics. However, it's all about it and it's really hard. He's a good little boy. Wherever you see, good morning. Actually. And that's when you meet a lot of cars. How will Armando be fined? Another cultural minority? It is not a thoroughbred cultural minority. It's just the mother. Father Ilokano, who migrated to the mountainous province. Sweet-sweet of That's it. His father will be intimate. I am so sorry. Of course. It's a doctor. I'm going to go through this. It's so low because it was a long time ago. You're sick. What, two? Approve. It's really hard in the world that it's not poggi and no mold duct. Come on. Sit. Mrs. Moral's temper said after I knocked and entered her cabin. I handed him a stacking book. Call you for two reasons. As for our lesson and your attitude in the classroom. He empirically streggled attitude. Here we are inside me. Why didn't I just get sick anymore? I would ketched my fever in so there was no sermon waiting. Jojo, the guy is not full stomach as you would like to let go. He said that while the color was raised. Don't tilt, I remind myself. I feel resilient. It's hard to argue with the teacher. You're just smiling. It will also stop. But he had no intention of shortening the sermon. The first time there was no substance. This is an example of a priority statement. Will you get me? I nodded. Ok. Now, you know, you probably don't have the data processing that I want to have. You're just talking about speculation, and it doesn't matter in the scientific world. Our lesson is harder than you ever thought. What you mean is probably the role of economic determinism in modern philosophy, which is alarmingly wrong. Is it a pity that you do not use the approach of the authorities or the elite? Behavioral factor is a trend in the West. Why can't you be happy? Ignore, just smile. I reminded myself again. Just let him talk. Will it be the same for what to say. Enter the right tea, outside on the left. He was a teacher, so he felt he was the only one who could be right. Will you get me? I'm still tango. And now, Part II of his sermon. Honestly, I don't like your attitude in class. I just bowed to my ship. Then I whispered, I'm sorry, ma'am. Although I didn't look at it, I knew it would be dry. He was a naughty at school. I hope he is as honest as he would have told me too, I would not say: Feeling mutual. I don't like you either, ma'am. Instead, I just said, Can I go, ma'am? I'm not done yet. This means that there is still Part III of this issue. You saw you in the chapel last night. God, like my personal life now knows them inside me. I felt the warmth of his star on my face. How young are you, Jojo? I have no regrets. I had nothing to explain to him. I'm not going to answer. I say seventeen. Seventeen and already you ... He doesn't like it and what he wants, that's what I heard. I got up to leave. Before I was on the take, he even gave his sermon: I'm going to tell your mother about it. I really wanted to disappear. I wanted to go back to him. I wanted to open her face to all the

bitterness I had in the world. I was sour as manly as I wanted it to happen. What's wrong with what I did in the chapel? Tess and I only had one hand. Is that a bad thing? Perhaps it was bad why Mrs. Gles-ing suddenly passed the chapel at that time of the night. Poor Tess. I was pretty sure this was an example of Mrs. Moral characters of what a student shouldn't be. Ms. Gles-ING, of course, almost entered the tongue with the threat of her scoop. What else could I do, I wouldn't blow up again in the air and whisper someday. If I'm crazy as Miss Maybe they won't be happy, but I'm sure they'll wonder why. My Alaskans were in the lobby. Joe, we're not betting. Let these ladders answer me. If you were a motel, they wouldn't know anything. Stop, I said. Another 'to, what can I do with the chapel? Even if you have magic, there is no miracle of what is going on there, I said. You're another one. It's the life of a taxi, I have it all. You know you might be racing with Mrs. Robinson. They laughed. I was also noticed even though I was erased in life. It's just a container in Cuba. I feel sorry for them. The beer was followed by one more and again. The road was filled with one for the road. How to quickly bottle beer, so fast time. What have you really done with the chapel? Is that a bad thing? Just curse in front of the altar so as not to separate me, even if I kick me out. Is that going to be a lie? Why their minds are unclean. You thought you didn't hold hands with the kids. They could be like them? They laughed. They were good, at least happy. Yes, even when entertainment is still my teachers. I'm so over-itable. Why didn't they want to see the truth different than they were? Why did they want all people to be like them on earth? Is it because they think they are the ones who focused on mine intelligence and law, so that no one has ever left for us to be discriminatory? But not they call the experience, but twenty years in service, just means who has been extended for twenty years? Now I just think if Beethoven can be alive and get exams on the stock exchange, even as a student or teacher, of course, will not be accepted. The Philippine School of Science and Technology, the school of future scientists ever, has finished the treatment and treatment of those who are lazy to dress often bath? Einstein? It's a genius, so just don't write. He threw it out, too. No long hair is prohibited. Of course, Mr. Discipline will tell him: comply with school requirements. Maximum tolerable haircut. This meant that the stone was too busy. Make the top tea pupin on top. Hemingway? No one can imagine this being a serious person. Drunk entrands are not prohibited in class. Maxim Gorky, the greatest Russian writer Chekhov and Tolstoy, could teach comparative literature here? I don't think it either. In addition, he also did not have a diploma of education without an English language unit. Will Christ rise up and go to Science? He said he could come in without an M.A. and a Ph.D. Just to enter the gate? It is not so if he meets Mrs. Moral or Mrs. English, they may even be shocked. I suppose they would say this: Imagine, courageously, a vow of appearance. Long hair, no healing, finished grinding yet. What if he is a child of God, he has no sense of dementation. If Christie served here, he might just be able to discover Who's Your Authority, Where Your Behavioral Data Is Now in the West, Why Don't You Feel ... Perhaps his chosen family, because if in science he was born, Christian history can change the history of Christianity in the world. Oh, the sense of decency and judgment is really scary. Pure cuts (Einstein's crest) white polo shirt and black trousers (change Christ). I wonder if teachers are also professionally urging teachers if they are dressed as civilians on Wednesday. This is what the party seems to be at home. This is the type of fabric you can notice right away and say: Oh, beauty, where did you buy it? Maybe that's expensive?, which would answer: It's just cheap, of course, yard. Christian Dior, originally published as Rustan's. And to truly notice, they also have to cry in the scent. It's like a walking pharmacist. The face is painted as a painting (pasty). Then tea, neck, chest, hand and fingers will cover the chest, hand and fingers. With their good and look, it's like you saw a Christmas tree on an expensive day. It's a property among them. If that's the case, they can't invent it. The night Mrs. English and I caught Tess and I, I never noticed Christ's orders. He said that the Jews insulted him, that the crucifixion was crucified. But Ms. Moral Characters, Ms. English, Miss Spermatozoa, Mr. Mathematician and Mr. Discipline and their avid. So maybe they covered the nudity of the pelus of Christ, who grabbed the volume of borloy. The Virgin Mary is the wife of a humble carpenter, but in her rant today she is now a peacock and an Xmas tree. Even his tears were made with pearls. What they didn't look like was what they immediately noticed. A person who believes in themselves is what they want to desecrate. Who made Jojo tell them who is just a man. When they were students, could they accept science? Are they also scientists? But why have they been only a teacher for a long time? Could they know what in life they were teaching? They didn't seem to be children. As if they were born, they already knew everything. They might think being a student is a joke. Can they hold class in the past, fans? If they really don't make mistakes, it should be immediately reported by Santo Papa of Rome. The Saints are only in the Philippines. Which one can be careful? Where can you be around in the world? We were still good in the referendum. What could be important, the fate of the Philippines or the moral character? This is the fate of the Philippines, it can be broken, but who is more sexy, Alma Moreno or Elizabeth Oropesa we can not decide for adults just because of this. Ops, don't ring to think. It's a different conversation. Can we put thumbtacks on Mrs. English's seat? Hello, hello. They were still good and crying. So, who can I complain about? Can I write to Valencia? He can tell me, Just have a coffee. Is Mark like that? It's a terrorist problem in life, it's a joke that it's going to be a problem for the Philippines and then even answer it in history, how will he notice me? I wanted to report to Carter, it was also a human rights issue, the fate of casual students, but it was hard to drink. The only thing that interested the war was that they were old. Can I write with God? But he was in all places and corners, so he certainly knew my problem. Why from preaching on the Sinai Mountain, no I do not know poor students for their inheritance ... Maybe because he had no heavens or lands that could still lead to another. I don't want to be a movie. I had to say I could be crazy. I didn't want to be a robot, I didn't want to be a rock. I'm just a man. The comfort room was small if I was there to write a hat. There were a lot of firsts. What you hold is the future of the Fatherland. If you can reach this high, you be great. To overthrow fascism. Fight. Oh, my God, you're your favorite mother. Alpha Fi Omega. Wanted pen-pal. I will also complain about the wall if necessary until someone can read and hear my hat. But for now I'm going to be ringing my heart.----- added value for this story. This is the nacite CJ Corona about President Noynoy. He said he commanded like a king. He said he was a dictator. What did I really say? If he were a dictator, how could CGMA be?
