

REScoop PLUS National Workshop

The Technical University of Crete and REScoop PLUS would like to invite you to the Central Union of the Greek Municipalities for a National Workshop on Energy Efficiency.

The 22/05/2018

**At the Central Union of the Municipalities of Greece
Acadimias 65 – Gennadiou 8, GR 10678 - Athene**

REScoop PLUS is looking to make REScoops in Europe go beyond their activities of producing and supplying energy and take up energy savings for their members as a new pillar in their organisation.

The Energy Efficiency Toolkit brings together selected, tested and graded best practices to support Energy Efficiency in REScoops. The National Workshop Tour is bringing the Energy Efficiency Experts of REScoop PLUS in 6 European countries to present the Toolkit and help REScoops to deploy those best practices.

Registration and Welcome coffee	8:30
