Gemini Gemini is a third-person stealth action game set in a living universe that is all about your choices. Live and work alongside other sentients in a vast galaxy. Visit remote worlds, trade and conduct transactions, uncover the truth about your past, and even alter your future. For anyone who wants to make a difference, there is a role available for everyone. Make the right choices and you can define your own fate. Creative Inscriptions: Story Based Light RPG The world is changing, and the surface below is starting to stir. As the planet gets closer to the coming Elemental Shift, you can feel the change. Stick to the Surface We are worried about the first settlers, the ones below. Our job is to protect them. Unfortunately, we can't do that from the surface. But you can. You are a part of a team of tunnelers, the best in

the business. The deeper you go, the bigger the risk, so the job is dangerous. The only way to find out if the shift will be bad or good is to find out what's below. If you need the money, work with the Consortium. If you're a good person, help the settlers. But watch out! Just like above, below the surface, everything is not what it seems. Your choices can lead to a future of war or peace. Only you can decide what will happen in this game of secrets and lies. RPG Maker MV Patch 1.9.5 is released. It contains mostly small bugfixes and changes to the user interface. RPG Maker MV Patch 1.9.5 Bugfixes Fixed an issue in which the game gets stuck in the art selection screen on the 'Unlock UI' option in the user interface menu after some heavy action. Fixed an issue in which the game gets stuck in the Item Frame section of the Character Frame in the Character Creator. Fixed an issue in which characters 520fdb1ae7
