The series was televised on Tokyo from October 4, 2003 to September 25, 2004, with a total of 51 episodes and a feature film. , generation sequels Genseishin Justiriser and Chousei Kantai Sazer-X. The premise of the series has a clear inspiration and similarity to the super Sentai tokusatsu genre, as well as manga/anime Knights of the zodiac: there are 12 warriors named Sazers, divided into four Tribes, each symbolizing the element of the Earth. Granzaser debuted and closed on the same day as the Tokusatsu Pretty Guardian Sailor Moon series. History 400 million years ago, the Earth was inhabited by an extremely developed human civilization, with the technology to create giant robots and super-families. After the war between such a civilization and the invasion of aliens, life on Earth was destroyed, and the whole story, as we know, it began to unfold. Currently, 12 descendants of this civilization, called sazers, must unite to protect the planet from the onslaught of aliens of different planets, who want to destroy the descendants of the first people and take away the planet Earth. Each Suther is a sign of the zodiac (one of the cosmic constellations), and each tribe represents one element: Fire, Wind, Earth and Water. Each of the tribes has a stellar super God, giant castles built by an ancient civilization designed for their descendants. Granzazers Granzazar are descendants of warriors of ancient terrestrial civilization, designed to save the Earth from alien threats. Each of the descendants of the ancient Sazar (only 12) has a mark with the symbol of its zodiac constellation on the chest of the left hand. When in dangerous situations, they can turn such characters into soqueiras called Knuckle Risers Nakkuru Rydze?). Using the Rebellion, they can become Gransazer warriors. His cry for transformation - Suchaku! () equip, install or wear armor. The 12 members are divided into four tribes representing elements of the Earth: Fire, Wind, Earth and Water. When three members of the same element unite, a tribe is formed, and members of the Church can call their giant castles star superbods () built by an ancient terrestrial civilization as a weapon of war. Fire Tribe The Fire Tribe is the main tribe in the series, the first recognizes the fight against aliens, and the second must be completed. From the very beginning, they are watched by Professor Horiguchi. Its appearance is based on birds. Tenma Kudu/Sazer Tarius is a biker who works as a deliveryman in Tokyo. Impulsive and brave, Tenma was discovered as Sazer after being delivered to Professor Horiguchi and found to be kidnapped by the Wind Tribe and in the battle against Sazer Wells. In danger, his powers awakened, and Tenma was able to turn into Sazer Tarios, a warrior of the constellation Sagittarius. Joining the Fire Tribe, he is in friction with Mika, who only disguises that they both love each other. As a weapon Tarius uses a bow, Falcon Onion (フイコい, Faruon Be?). His last hit is the Burning Falcon (エイグフイコ, Beningu Farucon?). Mika Sidu/Sazer Mtetra is the first Suther to wake up in the series as a warrior Aries. Since then, he has assisted the professor in the study of the technological civilization that inhabited the Earth. Chubby and quiet, Mika almost always fights with Tenma, who only hides his feelings for him. Like Mitras, he uses the Swan Sector as a weapon (ずいいクタ, Suwan Sekut?), two fans who can deliver the powerful brand Tornado (フトイド, Buran Torunedo?). Ken Sidu/Sazer Lion, Micky's brother, was the third member of the tribe to awaken Leo's power by allowing the wicker fire, Garuda, to emerge. Calm, romantic and even gentle young man, but at the same time brave and brave. He uses the double swords of the Double Crescent (ハブクレイト, Daburu Courecento?) to deliver his last blow, Hien zan (いいい, Hienzan?. Swallow Flying Cut). Tribe Of The First Tribe to be complete in the series, The Wind Tribe (イトブ, Kaze not Toraiibu?) begins the plot of the manipulated alien Karin Akelon, who pits them against Tenm and his friends. However, history, open your eyes and move toward goodness. Its appearance is based on insects. Akira Dentswin/Sazer Remles ()洗 1) is a doctor and senior Granzazer, waking up with the power of the Twins when Karin was on his side, eventually being convinced to destroy the Fire Tribe. Of all, it was time to open their eyes, even fighting against their comrades, when they befriended the other Sathers. Use the Iron Gale rifle (アロい, Airon Geiru?) to finish the enemy with his deadly strike, Final Judgement (フイナジャジイト Fainaru Jajjimento?). Ryoko Amemia/Sazer Velsu ()涼 1 () of Amemo Ryoko/Ses Verus?): A physical education teacher who was awakened under the constellation Aquarius, Roko was recruited by Karin to complete the Wind Tribe with Akira and Jin. Smart and calculating, she was the first to distrust the intentions of the doctor and first realized that Tenma and her friends are not bad guys. His weapon is two discs called Sel Cross (いクロ, Seru Kurosu?), and his last hit is the Full Moon Slash (フコシバ Furuu Muun Surasha?). Jin Hakariya/Sazer Dale (秤いいいいい, Hakariya Jin/Seise Dairu?): The stylist, Hakariya woke up like a Libra warrior, being called by Karin to complete the Wind Tribe with Akira and Ryoko and eventually join others, more for fun than for a mission to save the Earth. Their weapons are two tonfas called Axe Tagger (アクタい, Akkusu Tagga?), which can deliver the powerful Dai Senpuu Ha (Yap旋いいい, Daisenpuuha?. Great Destructive Hurricane). The Tribe of the Earth of the Third Tribe appears, the Tribe of the Earth (イト, Daichiブ but Toraiibu?) begins in a disjointed manner (due to Naoto's individualism), but eventually come together in battle. Its appearance is based on mammals such as bull, cat and buffalo. Naoto Matsuzaka/Sazer Tsvlron is a former undefeated fighter who left the ring to devote himself to training junior fighters. Wake up like Sazer under the sign of Taurus. Individualistic and very focused, Naoto believes in the philosophy of isolation, always inhabited and slaughtered in places of difficult access, in which there is no one, because he believes that only in this way can become stronger. Because of this personality, Naoto goes into friction with his teammates when they have to team up in battle. His weapon is a bull's gun (ブコヤい, Chianon?), two double guns on his shoulders. His final hit is the powerful Matador Explosion (マタドエト, Matador Basuto?). Ran Saotome/Sazer Wijuel (早乙い 簡/いいいイジバエ, Satome Ran/Siesa Vijueru?): Street dancer, Ran is sweet, innocent and even half-stupid, which hides her determination and courage to pursue her dream of life: to become a professional dancer in the United States. Kidnapped by Karin to fight on the side of the Wind Tribe, Rahn fled and, trying to save his accused's friend from the crime, became Sather Wizulem, a warrior under the sign of the Virgin. His weapon is Lady Claw (レヂク Reedie Coure?), a pair of claws. His last hit is Night Scratch (ナトクバ, Naito Sukurachi?). Go Kamiya/Sazer Tragos is the policeman who arrested Ran's friend. During the capture, the bandit took a gun, and his partner was knocked down, which awakened gu's strength as a warrior under the sign of Capricorn. Very compenetrated and dedicated, Ou has honesty as his main achievement, always trying to establish justice. His weapon is the Spiral Horn (ユバい, Supairaru Hyun?), a powerful exercise, and his last strike is The Wind of Thunder (いいトレットババ, Penetoretto Sande?). The Water Tribe Water Tribe (イト Mizu but Toraiibu?), the fourth and final tribe to appear, appeared after the Akelon incident and had a tribeブ to finally reunite all the warriors of Sazer. Led by the strict and suspicious military photographer Makoto, this tribe fought for some time on its own. After completing both the tribe and woke them up Chouseishin, Leviathan, they joined the other Suthers. The water tribe costume is based on marine animals. Makoto Sorimachi/Sazer Gorboration is a leader of the water tribe. A photographer who worked on portraits in the war (where he woke up as a warrior under the sign of Scorpio), and therefore has a great sense of individualism, abandoning any approach of strangers. You only trust your tribesmen. After saving Tenma from death, he is invited to fight with other sazers, initially refusing, but gradually yielding to appeals. His weapon is blast saw (フトい, Burasuto Sa?), a jagged sword, similar to a swordfish, and his last blow De Storm (エトコ, De Sutyumu?). Ai Uozumi/Sazer Fish (魚住) (魚住/いいいバシバ, Uozumi Ai/Seise Paishazu?): The youngest of the Gransazers, Ai is a loving and sensitive nurse working at the same hospital in Akira, eventually becoming her subordinate and falling in love with Ele. despertada como guerreira sob o signo de peixes quando atacada junto com Tapei.
