zip CANT UPDATE. SCREEN UPDATE PROBLEM. Try Run game after change gfx. Please help me. I have a problem in update and lua file. I try to change the language of the game but when I change language, screen update problem, so I have trouble to change language. Please help me to solve my problem. Thanks hi we have a problem of the update our english version.we did everything as described in the manual:we can play the game in italian or spanish or english, but if we change the language and we try to update the game after change the language, the screen are frozen and we have to force close the game.i can do it only in the Italian version. I need your help;)i saw there is someone who have a solution to this problem but we can't read it.can someone help us please?Q: How to give a relative path to a file in Python? I want to pass the file to "image\_string\_from\_file" function which is available in the "util" folder. Here is the code: from tensorflow.examples.tutorials.mnist import input\_data mnist = input\_data.read\_data\_sets("MNIST\_data/", one\_hot=True) def image\_string\_from\_file(image): image\_string = "" for i,j in zip(image, image[:1]): image\_string += ".join(map(str,j)) image\_string += "0" return image\_string print(image\_string\_from\_file(mnist[0])) The error that I get is as follows: Traceback (most recent call last): File "C:/Users/Zahra Hussain/Desktop/Code/Python/Simple Neural Network (Minimal1)\_v2.0.py", line 29, in File "C:/Users/Zahra Hussain/Desktop/Code/Python/Simple Neural Network (Minimal1)\_v2.0.py", line 16, in image\_string\_from\_file for 520fdb1ac7
