The content of The Show He is a successful and lifelong nemesis of Oscar Proud, who made his fortune on a basketball shot that Oscar missed back in high school; now he owns almost the entire setting of the show. The implication is that The Wizard of Kelly is a pun for Magic Johnson. It's probably more accurate to say that Master Kelly's surname comes from magic Johnson's maiden name, Erlit Cookie Kelly. The gag on Magic Johnson's wife extends to the fact that The Master's wife Kelly is referred to as gingersnaps. The name of the city that the proud family lives in Wizville, California is as shown when Penny gets a driver's license in a Proud Family Movie. Despite all the vile things he's done with the Oscars, he still attends all the Wizard Kelly events. The running gag series is his notoriously lousy memory; that he doesn't remember the names of the main characters, no matter how many times they tell him. He always calls zoe Susie and Oscar Oliver Om Prune. In the face of the Master Kelly is never shown in any of the episodes. Instead, the shot is awkward at an angle, so that it can only be seen from the neck down; but his face made two separate appearances.
