Freighter or offshore trevor heist

HEIST Freighter (above) Offshore (bottom) Trevor Phillips Trevor PhilipsMichael De SantaFranclin Clinton Freighter 'Get in the Vehicle. (Trevor) - A trip to the bridge. (Trevor) (Franklin) (Franklin) - Plant the first bomb on a nasal pole. (Michael) - Plant a second bomb on the first mast. (Michael) Put the third bomb on the second mast. (Michael) (Michael) (Franklin) - Find the device among the wreckage. (Michael) (Trevor) - Return the device to the safe zone. (Trevor) Offshore Find a four-seater car. (Michael) - A trip to the runway. (Michael) Get in Cargobob. (Michael) Use the hook to pick up the submersible. (Michael) (Michael) - Release the submersible next to the test site. (Michael) Use the Trackify app to find your device. (Trevor) (Trevor) - Climb to the surface level. (Trevor) (Michael) (Michael) (Franklin) (Franklin) (Michael) - Fly low over the runway and release the submersible. (Michael) I'm not the hee Blitz PlaySonar Collection Doc MinisubCargobob (Only if an offshore method was chosen)The book Merryweather Heist is a mission in Grand Theft Auto V. This is the second heist mission in the game that the heroes Michael De Santa and Franklin Clinton perform and the first to also bring in Trevor Philips. Since Three's Company mission has the first meeting between Trevor and Franklin, it must be completed before the main robbery is unlocked, although preparatory missions can be completed before then. In order to commit a robbery, Trevor must perform several preparatory missions to get the necessary equipment. The number of preparatory missions depends on the approach, although both approaches require the player to acquire a submersible. This approach requires only one preparatory mission (Minisub). If this approach is chosen, Trevor calls Franklin and advises him to visit the shooting range to improve his shooting skills. This approach requires two offshore training missions (Cargobob, Minisub). If this approach is chosen, Trevor calls Michael and advises him to visit the flight school to improve his pilot skills. Mission Depending on the chosen method in the scouting port, the

entire mission will play in one of two ways: Freighter Despite Franklin being recommended to visit the shooting range, this is not mandatory. Trevor, Michael and Franklin meet at Floyd's apartment, where Trevor explains Trevor and Franklin get into Trevor's truck and drive on the flyover Miriam Turner. Trevor drops Franklin, and Franklin heads to the point of view. Several game hours pass, and the mission resumes at dusk. The player switches to Michael, who waits next to the cargo ship in the boat. Michael dives into the water and gets on the cargo ship. From Michael's point of view. Michael gets on the cargo ship and breaks inside, while Franklin covers him, killing the guards with a sniper rifle. Franklin kills the guards, and Michael plants four sticky bombs at various positions on the ship. At this point, Michael was spotted by other guards. The player switches to Franklin, who kills the guards chasing Michael, and shoots down the Merryweather helicopter. After the guards were killed, Michael leaves the cargo ship and detonates bombs at a safe distance, drowning the cargo ship. The player regains control of Michael, who searches for the wreckage of the cargo ship with the help of diving equipment. Michael finds the device and is assembled by Trevor, who piloted the submersible. On the shore, Floyd uses a crane to lift the submarine to the dock. At this point, Leicester Cross arrives to wear hospital clothing, and warns the trio that the device they stole is a very dangerous super weapon and that they should return it immediately. Trevor refuses, but Michael promises to find another account for Trevor. Lester leaves with Floyd to return the device, while Michael and Franklin leave, leaving Trevor alone on the harbor. Offshore Despite Michael being advised to attend a flight school, this is not mandatory. Trevor, Michael and Franklin meet at Floyd's apartment, where Trevor explains the plan. Trevor, Michael and Franklin are in Trevor's truck, and Michael takes them to Sandy Shores airfield. The trio arrives at the airfield, where Trevor is part of a submersible delivered by Wade and Floyd to the Packers. Michael uses Cargobob to lift the submersible, and they fly to the Merriweather test site in the Pacific Ocean, near Paleto Bay. Michael releases Submersible close to the test site, and Trevor uses the Trackify app to find the device. Trevor finds the device and rises to the surface. The player switches to Michael, who lifts the submersible from the ocean with Cargobob. On the way to the runway, cargobob is attacked by Merryweather helicopters and boats, but Franklin manages to fend off the pursuers with combat MG. Michael lands Cargobob back at the airfield. At this point, Leicester Cross appears and warns the trio to return the device as it is a very dangerous super weapon, and will make them targets for the authorities. Trevor refuses, but softens when Michael promises to find him another account. Leicester leave with Wade to get the device back and Michael leaves with Franklin, only at the airfield. Mission Purpose Freighter Find a Vehicle. - (Trevor) Go to Miriam Turner Overpass. - (Trevor) Cover Michael when he sets bombs. - (Franklin) Plant four bombs. - (Michael) Cover Michael so he can avoid the ship. - (Franklin) detonate bombs. - (Franklin) Find the device among the ship weckage. - (Michael) Go to the device. - (Trevor) Take the device to the safe zone. - (Trevor) Offshore Jump to Sandy Shores Airfield. - (Michael) Enter Cargobob. - (Michael) Choose a submarine. - (Michael) Go to the test site. - (Michael) Release the submarine close to the test site - (Michael) Use the Trackify app to find the device. - (Trevor) Choose a device. - (Trevor) Go to the surface. - (Trevor) Choose a submarine. - (Michael) Destroy all Merriweather reinforcements. - (Franklin) Go back to Sandy Shores Airfield. - (Michael) Gold Medal Goals Freighter Headshots - Kill 12 Enemies with a Shot to the Head Precision - Finish with precision shooting at least 80% Goal for head with all enemies to achieve both. Ninja - Kill 12 enemies using stealth attack No Alarms - Get to the inside of the ship without being detected place sticky bombs on the pillars rather than throw them, and use the ladder after placing the first pillar. This stops the guards hearing disturbances. Container Hunter - Find the container within 60 seconds to drive south straight towards the wreckage. The device will have a red flashing light. Offshore Salvager - Find the container for 02:00 Stay as high as possible until you almost level with the device, due to rocks at the bottom of the ocean. Time - Complete for 14:30 Show is not a mercenary - Eliminate all chasing Merryweather enemies the player cannot pass the mission without killing enemies. Weathering Storm - Escape haunting enemies of Merryweather in less than 4 minutes Self explanatory; Kill the guards as quickly as possible. Killing them faster helps with the purpose of time. After the Weazel News (Radio) mission, the container ship sinks at the port of South Los Santos. Witnesses described a scene of chaos in Los Santos harbor earlier as several explosions could be seen aboard a container ship that subsequently sank in the harbor. Reports show nothing was stolen and foul play is not suspected in the incident. Trevor receives a call from an angry Elwood O'Neal, who threatens Trevor for destroying his ranch and killing many of his brothers. Trevor taunts Ellwood for doing so and tells him to come and find him before hanging up. Daily Newspaper Globe Explosions ran through the port of South Los Santos last night and a container ship sank into the harbor. It's not like Don Percival, CEO of Merryweather Security Consulting, wanted to celebrate his company getting a work permit at the port of Los Santos. Along with courier cost Running a special security detail at the port is one of the major contracts Merryweather have taken over since Congress gave them an internal passage. Although some witnesses claim to have heard gunshots, Percival insisted that the vessel sank due to explosions in a faulty gas tank. Anti-Merryweather activists point to a similar incident in Sudan where Merryweather soldiers, drunk and full of steroids, accidentally entered other Merryweather soldiers in a combat situation and then tried to blame him on local insurgents. A full investigation has been launched into the incident. Lifeinvader Posts (Michael Lifeinvader) Leicester Cross - Next time you choose a job, maybe try something that's not going to start World War 3? When did you become so stupid? Oh wait, yes, for the last 10 years you've spent sitting in the sun drinking yourself to death. I forgot. Bleeter Posts (Freight Method) @rockford_captain67 - First overcooked duck breast, now thanks to some terrorists blowing up a boat in the port of South Los Santos, the yacht club wants to install an X-ray machine. What's next... women in the club? @jacksonbbj_1996 - Teachers tell us about highjacking submarines from the shipping terminal and I say this should be called lowjacking because submarines are underwater lol! hahahahha class in total stitches (Offshore Method) @geraldinok6 - We tell everyone we have the greatest military on earth, but we can not stop some hoods stealing helicopters from a military base on home soil? Pathetic. The world is laughing at us, President Lawton!! @plonkafreddie - I'm cruising down the Great Ocean Highway to look out to sea and think I see fireworks on this big boat... Then I look again ... and realize they're damn shots!!!! Soundtrack Home article: Merryweather Heist/Soundtrack Trivia Robbery will originally be called Port LS Heist, hinting that the canon approach is a cargo approach because it takes place in the port as well. The exact nature of the device, which is the purpose of the robbery is unknown, Trevor suggests that it may be a new type of generator or bomb. Lester simply refuses to take possession of it and orders Trevor to return it before Merriweather and the U.S. government track them all down, saying it's a super weapon. If an offshore method is chosen, the dialogue between Trevor and Michael on the way to the airfield will change, depending on whether the player graduated, like Michael, flight school or not. The same thing happens in the cargo method, with the dialogue between Trevor and Franklin on the way to the bridge, changing depending on whether a player, like Franklin, has completed the shooting range or not. If the mode of transportation is chosen and the Hood Safari mission is completed earlier on this mission, Trevor and Franklin will mention the events of this mission on the way to the bridge. Ending the scene of the cargo approach, Lester can be seen arriving at the pier in a taxi in the Xbox 360/PS3 version of the game. In the extended version, however, the taxi is nowhere to be seen. In the cargo method, Franklin refers to the events of the Three Companies mission, while Buzzard tries to kill him. He says: This is the second time one of these evil helicopters is coming after me, Trevor and FIB bad news!. Franklin's quote citing Trevor and FIB provides links to a phone call between Michael and Dave Norton after the Events of the Bureau Raid and before Wrap Up, in connection with the fact that Trevor was attacking Merryweather with Michael involved; as well as Steve Haynes classifying Trevor Trouble and orders Franklin to have Trevor dead. If the marine method has been chosen, the submarine will always appear in a small yard next to the warehouse at Sandy Shores Airfield on a permanent basis after the mission is over. The player will need Cargobob to take the submarine back into the water so it can be used (steal one from Fort zhankudo, see below, or just buy one). In the beta version, Wade was wearing a Juggalo make-up in the original cutscene cargo method. This is the only robbery in Grand Theft Auto V that has no law enforcement involved in the robbery. No matter which method is chosen, EyeFind will continue to report that the cargo ship has been attacked, however, Bleeter posts will be different. Strengthening the idea that the canonical approach is Freighter's approach. The submersible used during this mission is much stronger than the one found in the Sonar Collections Dock. It is able to withstand pressure at the farthest point (0.15 miles) to which the player can descend into the ocean, which usually the submersible will be destroyed in free roaming. Scenes from both approaches of this mission appeared in the official trailer of GTA V. Franklin will receive an email from Brother Adrian after this mission, asking to go to their website to join the Children of the Mountain Brotherhood. However, this does not appear to be the case in the PS4 version. Although listed as a second heist, you can participate in the third heist, Blitz Play first, making this the third heist. Freighter's approach is similar to the Bomb Da Base Act II mission in GTA III, while the main character (Franklin/Claude) uses a sniper rifle to provide fire support and eliminate enemies in order for another character (Michael/8-Ball) to plant a bomb (s) and sink a cargo ship. In the Freighter version, the protagonists' tasks are similar to those they had in Company 3, with Michael dressed in an all-black robe finding the designated cargo, Franklin perched over the elevated area providing sniper support, and Trevor controlling the transportation used to remove their cargo. In a cargo ship if Trevor takes Franklin to the sniper's nest in his truck, Franklin accidentally either steps into the front seat next to Trevor or jumps into the back of the truck. Also, if Trevor's truck or any other vehicle isn't around to drive Franklin to his point of view, Franklin's car will immediately appear to do the task. Keep in mind that while one would think that the events of this mission would affect Merryweather's finances, they do not seem to have any impact on its share price, or that its competitor, Gruppe Sechs. A glitch failure can occur after the mission is completed. If Michael bought the weapons from the gun store prior to this mission, they would disappear at the end of that mission. The cause of the crash is unknown. There is also a glitch present during the cargo approach. An optional achievement of 80% accuracy will not be awarded, even if the player's accuracy is 100%, making it impossible to achieve a gold medal for this mission. This can be fixed by removing the patch (which can only be removed from the hacked console or PC.) and ignoring the game's request to reinstall the patch. This glitch is not present in the offshore approach. If the Freighter method was selected, after completing the mission and moving to Michael, he would have maximum ammunition for all his weapons. A failure of the next-generation and old-generation versions during the Freighter method can cause Franklin to lose the ability to zoom in with a sniper rifle after Michael entered the ship on stage, making it almost impossible to complete this part of the mission.
