Sceptre 144hz monitor review

anyone who uses headphones regularly it's a fantastic display and they are amazing for secondary monitors. ... Out of the box that was quite impressively packed came the show stall, an instant fondness for matte black metal which feels sturdy right from the start. ... Super easy to assemble the stand right out of the box. ... The stand is a bit shaky but amazing quality overall...and it's a little bit shaky. Dell's build quality is also excellent. ... They forgot the lock to the bottom of the stand. ... Just take it easy as the box chill was almost half broken and when the guy gave it to me he didn't even look at me and just walk away. ... The stand is very sturdy and has a good comfortable tilt mechanism. ... The second layer is the anti-glare layer. ... I took it off my desk and it's still working fine. ... Bonus - AMD FreeSync feature for those with AMD's M.G.P.C. ... The graphics are very good. ... GSync and VSync are compatible with a 10 Series Nvidia graphics card (GSync) ... It makes the job its price okay...and it's not going to work. AMD FreeSync works great I say. ... You can definitely tell the difference in performance and graphics. ... AMD FreeSync works well. ... Perfecto Para Games y Overtrah de Mhz ... A mirror is an amazing dinner light and who doesn't like a curve... Very polished look! ... Looks really great. ... Just what I needed seemed amazing. ... I've got two and they're amazing looking...and I'm looking for... Looks polished, and I like how the exits in the back are clearly marked and easily accessible. ... Was what I wanted, works well, looks great. ... The monitor looks so nice. ... Lucky I got my replacement in two days. ... Here's a review! ... Finally reaction time. ... Received exactly as advertised. ... Free shipping back. ... Love the picture on it...and I'm going to love it. I wish I'd gone bigger but I do Like the curve and the picture. ... But can use a little more color, overaul image is great though! ... People always forget to do it and it's wild how easy it is to solve it. ... Super quick and easy installation. ... It's easy to get ready. ... It's easy to navigate settings and have descriptions for settings. ... Everything was simple to define. ... Easy to assemble and define and use as well. ... But these are very simple mistakes. ... Also, Freesync isn't available by default, but it's easy to turn on the Monitor Settings menu as well. - Using the manual, the installation was quick and easy. ... I don't like the fact that you have to run freesync on a bizarre menu. ... The controls are not intuitive. ... The volume controller is at the back of the monitor which can be difficult to access... I had it for two months and the paws stopped working and now it won't shut down. ... If I'm shorthand, the buttons on the board for access to his menu is pretty limited. ... I changed mine in amd control panel, but it didn't really change until I went into Windows settings and changed it to 144hz there. ... Update/Edit: Buy two more of these wow! ... Use the Raedon app to set the settings to 144. ... After adjusting the settings on the monitor and pinching them a little more even though Windows 10 and my graphics card I managed to get it just the way I want it! ... I use it to work from home through businesses and MS Office applications, Youtube, Zoom etc. and work perfectly. ... For Gsync to work, you must enable Freesync in the View settings through the buttons at the back, and then enable Gsync in Windows. ... You can check how to do this online depending on your activation. ... Will update review after new monitor arrives I use it without distracting pixel blown. ... For Windows 10 I had to make some display settings for Windows to work with this monitor smoothly. ... I tried to use different cables. ... At first I thought it was an HDMI cable, changed it and it does the same. ... Some of the problems I did get were, wrong screws, not enough cable time. ... There were a few times where some lines would appear and I thought maybe it was because an HDMI cable had me moved it on the back and they went away but it appeared a few more times. ... The monitor came with a missing power cord and when I used an old one to try and see if the display would work nothing would come on the screen, even after I tried many different display cables... I have my replacement in two days. ... The box came out flawless. ... The box seemed fine...and it looked fine. Tightly packed. ... It came well packed and unharmed by delivery. ... Delivery was very fast, came back it early and Amazon didn't even show it delivered yet lol. ... Free shipping back. ... Barça comes very well. ... If I had more table space I would buy a second one because the curvature would make side by side a nearly seamless double screen and much more immersive than setting up a standard double screen. ... The stand feels sturdy and doesn't swing. ... This VA Monitor AKA Wand C248B-144RK fits my upgrade needs perfectly. ... Easy installation, even included the magnetic driver of its own screw to help screw at the base! ... The stand is very sturdy and has a good comfortable tilt mechanism. ... I purchased two, and the curved screens fit my desk great. ... Lightweight, works great with my desk composition. ... All the screws were provided to the mountain and base, and it was easy to assemble with the screw driver provided, a wand you get big points for it because sometimes you just can't find the right screw driver or maybe some people just don't have one at all. ... Now it's in the garbage. ... I'll come back and hopefully get my money back. ... Terrible product, 13 days no refund yet... Going back to a refund. ... From the first day of use it would have happened randomly until the day I decided to return it. ... I went to get a new one after Amazon didn't return it because it was more than 2 months since the original purchase. ... Too lazy to send back, had to get right the first time. ... yes, I'll send it back. ... I tried to look at the refund policy, have to wait to send it back before receiving my money. ... We mounted it on a standard VESA table. ... It can also be mounted on a wall using a specific measurement of the vesa composition. ... It's also easy to install the desktop load for the screen. ... So other than the position, it's a great monitor. ... Lightweight, works great with my desk composition. ... I wish I'd gone bigger but I definitely like the curve and the picture. ... But can use a little more color, overaul image is great though! ... Love the picture on it...and I'm going to love it. Received exactly as advertised. ... That looks like the picture! ... In that aspect, he does what's been published. ... Looks and appears as advertised. ... Easy fix to set up a movie but I don't use it for movies...but I don't use it for movies. I watched videos like everyone else before picking and going with it. ... I use this monitor for 1080p gaming and streaming movies. ... It's perfect for videos, games and nothing but just about everything...and it's not just a lot. I watched lots of tons of videos on YouTube and read a lot of things before buying (as I always do). ... Plan to get dedicated speakers, even if you just want to watch FB/YT videos. ... Everything is good since I purchased it, works well for games and watching movies, recommends anyone who wants a nice looking monitor for their installation at a low price. ... Even watching videos with my fire stick looks great. ... All in all, I probably got a faulty monitor. ... It came in not working properly. ... Turns out I got a faulty unit and it's common for these. ... I doubt it was the sellers' fault but not the fault of wands since it looked like it was a manufacturing defect. ... All the features work well and its surprising light which may be a scam because an Amazon postman or messenger can easily think it's something else and not be careful with it. ... They're super thin and light. ... They forgot the lock to the bottom of the stand. ... They have so many all-in-one features. ... I got it as a gift for my son. ... A gift for a woman. ... There's this as a Christmas present Ben loves it...and I'm going to have to do it. It was a gift for my son! ... I bought it as a gift for my nephew. ... He sent me a screenshot and told me he loved it so I decided to purchase as a Christmas present. ... Bought as a gift and had exactly what was published...and it was a good idea. Nice and skinny. ... I love it, it's small, and light, I thought it would be bigger but the size of 24 is good to work. ... Plus, I got it on a super small table, and it almost wraps around the table! ... I like it curved and its size. ... Although they are very small and imperceptible anyway. ... Find the review by Linus on Youtube and you'll feel safe buying it. ... It wouldn't hurt! ... I wasn't comfortable keeping it so I contacted Amazon and they worked with me in solving the problem without any hassle. ... 24 inches on a table is much more comfortable. ... I bought it for my husband so I wouldn't have to listen to him yell at the TV in my living room anymore. ... Serious gamers in our house love it. ... Sitting on his desk at A room that he spends a lot of time in... Great monitor for the battle station in my bedroom. ... The only drawbacks are that we require a speaker to improve sound. ... I tried to update my GPU administrators and change the input glands several times, without success. ... After troubleshooting cable and driver issues and everything else with Amazon, they advised me to file a warranty claim with a baton. ... After adjusting the settings on the monitor and pinching them a little more even though Windows 10 and my graphics card I managed to get it just the way I want it! ... I use it to work from home through businesses and MS Office applications, Youtube, Zoom etc. and work perfectly. ... I would download a program too to help you calibration the color settings but once you do that, there is not one thing on this monitor that is not up there with the best of them except the lack of a large amount of rgb should definitely buy this monitor if you need a budget monitor or even just a really good monitor for games or a high refresh rate anything. ... Use the Raedon app to set the settings to 144. ... ive has now had this monitor for at least about 7 months and it is still running strong. ... I set it to 200hz to check and it went 202hz running great so I left it. ... I use this manily for PUBG, and running 144hz makes it so much easier to detect and track enemy movement. ... Perfect packaging, quality is as expected. ... It was very well packaged and it felt premium. ... It's just for my viewing pleasure. ... The fine viewing angles aren't something too crazy but good enough. ... It's a VA panel so viewing angles and contrast are good. ... The screen is big enough. ... I really like the size of this screen. ... It's a 1080p display with a 24 diagonal screen size diagonally, which means the pixels are quite dense. ... The pictures were clean and clear. ... Very clean overall. ... Everything is so smooth and clear! ... The picture is clear and sharp. ... A voice out of duty looks much better. ... Play it. ... Very clear and volume was fine but good enough to hear... 2) Nice tightly packed included accessories. ... And takes a lot less space. ... If you look into buying this monitor and have a reasonable amount of space on your desk, buy 27 one, since it costs around \$10 more. ...
