Hi Fool,

For a limited time only, you can join *Motley Fool Stock Advisor*, the stock picking service whose average pick has returned a whopping **636% to date**, and crushed the S&P 500 by 4X...

For *80% OFF or \$319 saved...instantly!

By joining today, not only will you get to enjoy this massive 80% OFF* deal, but you'll also get access to:

- **The latest stock picks** from our analyst team (wish you knew about Netflix or Amazon before they got big? Well, we told our members about them before they did!).
- **What 10 stocks our analysts think are the *most undervalued* right now**, (I can't believe so many investors are missing out on these opportunities).
- **Updated expert coverage on all *Stock Advisor* recommendations**. (No need to go digging through financial reports - our expert team has broken it all down for you).
- **A boatload of FREE reports** including the *AI Disruption Playbook* and *Tom Gardner's Double Down Stock*.
- **A thriving community of over 500,000 like-minded investors** who love this service.

This is your **exclusive early invitation** to get ahead of the crowd and secure your financial future with one of our best offers.

We're not opening this offer to everyone — just our email subscribers. So consider this your special chance to get in early and for less.

But you better hurry because this extraordinary offer — [two years of Stock Advisor at an *80% discount](#)—is available to you for just four days.

Day 1 - May 24, 2024

Subject line: Today: *80% off our top stock-picking service

Preview text: Spring into Financial Growth with Our LIMITED TIME Memorial Offer!

We're celebrating Memorial Day by offering you an exclusive 80%* discount on two full years of Motley Fool Stock Advisor.

But this offer is only open until Monday at midnight.

We're offering this massive sale because the market is seemingly ripe with opportunities, making it a potentially prime time to invest...and we'd hate for you to miss them.

For example...

One of our newest recommendations is a fast-growing beverage company that has already disrupted the energy drink industry with its popular offerings. And since May 2023, this stock is up 108% – and we believe its run-up is just starting.

Another stock was focused on artificial intelligence before it was a buzzword. We believe it's an under-the-radar play on the megatrend.

And another stock owns the mobility and delivery markets in Southeast Asia...think Uber for Southeast Asia.

You see, *Motley Fool Stock Advisor* has been around since 1993 *and* has beaten the market by over 4.5-to-1 in its 20-year history, with recommendations like:

- Netflix (up **32,581%**)
- Nvidia (up **55,382%**)
- Amazon (up **24,558%**)
- Booking Holdings (up **15,145%**)

...long before these companies were on the front page of every newspaper.

In fact, if you had invested just \$1,000 in each of those stocks when we recommended them, you'd be sitting on **over a million dollars today**.

And we believe our newest recommendations have the same potential.

And that's if you're an investor looking for the next Netflix...the next Amazon...or the next Nvidia...

You might want to take advantage of our limited-time offer to join *Stock Advisor* for just \$3.29 a month average over 24 months*!

But again, you'll need to hurry because this offer is only open until Monday at midnight.

So don't wait.

Once it ends, we're closing it for good.

***24 Months For Just ~~\$398~~ \$79**

It's pretty dang expensive to research stocks these days.

A Morningstar Subscription runs **\$249 a year**.

A MarketBeat subscription will run you **\$399 a year**.

A Zack's subscription costs **\$249 a year**.

Bloomberg will typically run you **\$299 a year**.

That's why we wanted to give you a chance to join *Motley Fool Stock Advisor* for only \$79 for 24 months*.

(Talk about money in your pocket!)

And look, if you join you won't just receive our latest stock research and picks, you'll also get:

***Customizable Watchlist:** Track performance, stay up to date, and receive buy and sell alerts straight to your inbox with our customizable watchlist tool.

Normally, we charge \$199 a year for access to all these *exceptional* features and our winning recommendations — quite a bargain when you think about the vast nest of other services we've compared.

But for just a few more days, you can secure access to [*two full years for just \\$79](#) — it's like finding the golden egg of all Memorial Day deals.

Just remember, our average rec is up **636%** since inception, **more than 4X higher** than the S&P 500 over the same period.

Save *80% With Our Special Offer Now

Hi Fool,

This Memorial Day, we're cooking up a plan to empower your financial future—no need to rely on the whims of fate or to spend countless hours pouring over financial reports.

Forget about relying on chance or waiting for financial growth to magically appear.

Cultivate Your Financial Garden:

Now is the time to plant the seeds for your financial future.

Here's How You Can Start:

Stop Waiting: Just as a gardener wouldn't sit back and wait for flowers to bloom without planting seeds, you shouldn't wait for fortune to find you. Change your mindset: like a garden, growth comes from nurturing and care, not chance.

Take Action: With The Motley Fool's Stock Advisor's amazing insight — historical picks averaging **639% returns** — you have the guidance to make informed decisions. While we can't promise every pick will bloom spectacularly, our history of well-researched selections aims to cultivate a robust and flourishing investment landscape over time.

Embrace Opportunity: For a mere \$79*, secure two years of premium financial stock guidance with *Stock Advisor*, usually valued at \$199 annually. That takes your average cost per month

down from \$16.50 to **less than \$3.50**. Take those savings and use them to invest in your future with some of our historically incredible stock picks.

There isn't much time left to take advantage of our Memorial Day sale. Take the leap towards financial prosperity. Your future self will be grateful.

Save *80% On Stock Advisor Now

Hurry, this transformative offer vanishes in 2 days.

P.S. Need proof? Take a look at what Amy Swindell, a Motley Fool member of 8 years, had to say about *Stock Advisor*:

"We had a financial goal of getting both of our children through college as debt free as possible and as of this coming May, we will achieve that goal. It is in great part due to the recommendations that we received from Motley Fool"

But there's more - you'll keep the bonus reports, our way of saying thanks for giving us a go.

*** Bonus 1: AI DISRUPTION PLAYBOOK**

This \$15.7 trillion market could be "bigger than the internet," "worth 35 Amazons," and create the "world's first trillionaire."

*** Bonus 2: THE NEXT AMAZON.COM**

While it feels like Amazon is conquering the world, the reality is we're still in the early innings of a massive shift to online shopping. Our team of analysts believe Amazon is just first among dozens of huge winners in the e-commerce space, and we've identified one we think could be the next Amazon, plus four additional e-commerce stocks to buy.

*** Bonus 3: ALL IN BUY ALERT: 1 STOCK FOR THE DEATH OF CABLE, STREAMING, AND SOCIAL MEDIA ADVERTISING**

While streaming services like Netflix, HBO Max, and Disney+ get a lot of the highlights and attention when it comes to a new streaming economy, we think this wave is creating a big opportunity for some of our favorite companies.

*** Bonus 4: 3 STOCKS FOR THE FUTURE OF TRANSPORTATION**

As supply chains around the world struggle to keep up with the increased demand for goods the global economy is demanding, this transportation infrastructure is going to prove vital in the economy of today and tomorrow. Here are three stocks that we think are the backbone of U.S. transportation—and why we think it's worth getting in on them now.

*** Bonus 5: 4 STOCKS FOR THE DIGITAL PAYMENTS REVOLUTION**

People are leaving their wallets at home in China, and the trend is starting to make its way across the globe. Here are four stocks we think can benefit from this revolution that's still flying under the radar in the U.S.

*** Bonus 6: 4 PULLBACK STOCKS**

Let me ask you this: Would you rather have bought Amazon shares for \$5.33 in December of 1999, or \$0.30 in September of 2001? Sometimes, it can pay to wait for a pullback. This special report details 5 “world-class” stocks we believe are currently being treated unfairly by the market.

*** Bonus 7: THE LONG-TERM INVESTOR'S GUIDE TO THE 5G REVOLUTION**

An investor's guide to this once-in-a-lifetime business disruption. This technology could be worth \$17 trillion by the year 2035 and is a game-changer. If there's one stock for the coming 5G boom, this could be it.

*** Bonus 8: TOP STOCKS FOR 2024 AND BEYOND**

Hi Fool,

Over the past few days, we've been sharing the joy of our Memorial Day special: a golden opportunity to fill your portfolio with our top stock picks — at a massive discount — **just *\$79 for 24 months (2 years!) of *Stock Advisor*.**

Considering a typical membership costs \$199 for 12 months — you're getting a massive steal — **an 80%* discount, or \$319* in immediate savings.**

Savings you can immediately put towards stocks that will help you towards your goals.

This offer isn't just about saving money; it's about opening doors to a treasure trove of investment wisdom that has outshone the S&P 500 consistently (by over 4.5X)!

And what's a treasure without a little extra? Along with this offer, you're getting **nine exclusive bonus reports**, access to our vibrant community forum, engaging *live video sessions*, and much more.

But, this deal is just too good to keep open all the time. So as the day comes to a close, this offer will close too and if you change your mind, it could cost you significantly more.

We didn't price this offer so low to fill our coffers—it's more about sharing the wealth, giving more investors the chance to experience a service that has highlighted giants like Netflix (now up **32,581%**), Nvidia (up **55,382%**), and Tesla (up **8,276%**) before they skyrocketed.

Just take it from Amy Swindell, a Motley Fool member for 8 years.

"Our biggest win actually isn't necessarily a financial win. I mean, it is a financial win, but it's not monetary. It's not how much money we made, but it's about what we were able to do with our money.

We had a financial goal of getting both of our children through college as debt-free as possible and as of this coming May, we will achieve that goal. It is in great part due to the recommendations that we received from Motley Fool"

Do you think you have what it takes to become our next great success story?
