This compilation was created for people like me who own most SW game materials who can't carry them all in each session. PDF files were retrieved from other sources. I erased 0, all I did was compile what I had. Support processors or we won't get additional game updates/expansions. I lost some of my books, so I was trying to figure out what I was missing at 3.5. It was almost impossible to find a post/blog that contained a complete list, however! So, I hope this might help anyone trying to find all the books! I'm not perfect, so if you've ignored something, let me know and I'll edit it in the document. Everything in alphabetical order by source group.
