CAMP COUNSELOR INFORMATION

Camp counselor groups

Your child will be part of a camp counselor group together with up to 14 other children and have an employed staff from Side by Side who will look after and guide them during the camp.

The camp counselors only work during the day and camp counselor children are not allowed to stay overnight at Side by Side and must be picked up and dropped off each day in connection with the camp's scheduled activities.

The children will receive special (white) wristbands that show us in the staff to keep an extra eye on the children. If you have any questions before the camp, please feel free to email or call us in advance, contact details below.

First day

Bring your child to the registration at the Concert Hall on the first scheduled day, arrive towards the end of the registration so that your child does not have to wait as long for the first rehearsal to start.

Most tracks start the first day without lunch on the schedule, so make sure your child has eaten properly before the day starts.

At registration you will meet your camp counselor. Please take a moment to greet your child's camp counselor properly and take the opportunity to ask any questions that you may have. The camp counselor will then take care of your child for the rest of the scheduled day and you will then pick up your child at the entrance to the final location of the schedule for the day.

It is important that you always notify the responsible camp counselor when you pick up your child from the camp, otherwise we will contact you to get confirmation that the children have been picked up.

Other days

On the rest of the days you will hand over your child to your camp counselor in the entrance of the first scheduled location for the day. After that, the camp counselor will take care of the child for the entire camp day. At the end of the day you will pick up your child at the entrance of the last scheduled location of the day. The last day of the camp ends with a concert, where you will pick up your children directly from the concert venue after the concert.

We remind you that **it is important that you always notify the responsible camp counselor when you pick up your child from the camp**, otherwise we will contact you to get confirmation that the children have been picked up.

Other

At Side by Side and in central Gothenburg, there are many people on the move and we are very careful about taking responsibility for the children who are in our camp counselor groups. Therefore, it is important that your child follows the instructions from their camp counselor and does not suddenly depart from the group. We are usually flexible so if you and your child want to make a special agreement, then talk to your camp counselor.

Please note that our camp counselors generally do not have any special training or experience in caring for children with functional variations or handling medications. To function well in a camp counselor group at Side by Side, your child needs to be comfortable listening to and following instructions from our staff for their own safety. Therefore, we do not recommend a camp counselor group for all children, some will have a better Side by Side experience if they come here with a parent or teacher. Feel free to pack extra fruit or snacks for your child, they will get 2 fruits a day and lunch, but some need more to be able to rehearse long days.

Contact

Before the camp, the best way to reach us is by email:
sidebyside@gso.se

During the camp, you as a guardian or child can always contact our office in Konserthuset or our office phone: +4672-4018730 if you want help finding each other or getting help with something else.

Please contact us for questions about childcare groups:
