3LabVIEW MathScript

3.1 Introduction

Requires: **MathScript RT Module**

How do you start using MathScript? You need to install **LabVIEW** and the **LabVIEW MathScript RT Module**. When necessary software is installed, start MathScript by open LabVIEW:

In the **Getting Started** window, select **Tools -> MathScript Window...**:

The "LabVIEW MathScript Window" is an interactive interface in which you can enter .m file script commands and see immediate results, variables and commands history. The window includes a
